Department Chair Adriana Jimenez shared the following:

Adriana has taught Advanced Choir for 3 years. She teaches Musicianship, Cardinal Band 9/10, 11/12 and Cardinal Choir which is a come one, come all type of class with no skill level required to participate. All students are encouraged to take the class.

5.4 ACADEMIC REPORT-VAPA DEPT. CHAIR: Tara Davenport teachers 2 levels of Ceramics classes and Sara Trammell is a new teacher who teachers Art I, Art II, Advanced Art and Art History classes. The classes are all very full. The department would like more room and space but things are going well in the department. Recently, the students were able to attend the Crocker Art Museum and also participated in the Corning Art & Wine Festival which was held in February. The upcoming event that students are looking forward to participating in, is the Silver Dollar Fair which is scheduled in May.

The Music Department has held three concerts this year so far and is looking forward to another which will be held in May. The successes have helped fund special trips and competitions (registration and hotel). The department is low with regard to enrollment but is always looking into different recruitment approaches.

Some challenges have included motivational issues post COVID. Some students are just not engaging as much as they could be however, everyone is doing their best.

6. ITEMS FOR DISCUSSION:

6.1 VACCINE MANDATE

Superintendent, Jared Caylor shared that there were no major updates.

12.3 BELL SCHEDULES:

Superintendent, Jared Caylor shared that there has been discussion with staff prior to COVID trying to evaluate the biggest needs. The rotating schedule has been a concern for many years with internships, job placements for the students and community involvement. This year there was a fixed schedule which made it the same schedule each week. Admin wanted to see how things went and would like to see something very similar next year. The schedule will just allow for less time off on Mondays. This time will be split elsewhere which will hopefully help ensure fewer coverages, absences and student absences.

5.4 SPRING COACHES REPORT:

Spring Coaches reported to the Governing Board.

Baseball Coach, Jared Stearns:

- 1. Regular Styel season/normal routine.
- 2. Played 5 games and record is 2/3 but working hard.
- 3. Varsity has 13 players and JV has 14th.
- 4. Coaching staff is good.
- 5. New dugouts are great and its nice to have community support/donations.

Gold Coach, Thomas Mendonsa

- 1. Head coach along with Paul Kanner.
- 2. 10 Golfers total and had one match so far.
- 3. 2 girls are playing.
- 4. Many new players who are eager to learn.
- 5. Placed 3rd to day and this was the fist time the team was able to play somewhere else besides the Links in Corning.

Varsity Softball Coach, Just Ekenrod

- 1. Neikka Peterson and Julio Garcia are new to campus and helping coach.
- 2. JV is 3/2 and Varsity is doing well.
- 3. The numbers are down but this is possible the aftermath of COVID.
- 4. The group plans to hold Spring Clinics and camps to help encourage the younger kids to participate.

Boys Tennis Coach, Robert Richardson

- 1. 1st year and 2nds in the District.
- 2. 5 matches so far and 1/5.

- 6. The Corning Invitational always goes well and before the new track there were 10 teams participating and now after the new track, there are 32 signed up already this year.
- 7. The teachers on campus do a great job helping and Mr. Mendonsa is a huge help with the timer which is very crucial.

Board Member, Larry Glover asked what date the Corning Invitational was being held and Mr. Henry shared that it is scheduled for April 29th.

Superintendent, Jared Caylor shared that there were no major updates.

Luke Alexander shared that there were some items that were missing from the meeting minutes in February and wondered if the items were lumped all together? Superintendent, Jared Caylor reviewed and realized that some items were added, which were left out of the minutes. Admin Assistant, Jessica Marquez will correct and place the item on the next agenda for approval. He also commented about the Board receiving insurance. Board Member, 999commented also about Mr. Patton receiving insurance however, rarely in attendance at the Board Meetings. He feels that this is not fair and perhaps the board should not receive this benefit.

Ben Myhre also commented that he feels members of the board should have students that attend the school. There are many committee members that would like to participate and would be in attendance at all of the meetings as needed. Board Member, Larry Glover commented that he coaches and does not get paid to coach, so this is voluntary just as it is to be a board member.

Superintendent, Jared Caylor thanked both for their comments.

Increase to 1,518,001 942,153 -575,848 Fund Balance CBO, Diana Davisson shared that the District settled with both unions and wanted to recognize Payroll Tech, Carol Lynch for all of the manual calculations and entries that took place during the process. This second interim reflects the union settlements and there is a healthy stream overall. Overall, things are more expensive but the district is able to maintain the 12% reserve for economic uncertainty which is great.

The District is doing well and is in a great place financially overall.

12.2 CERTIFICATION OF THE DISTRICT'S FINANCIAL CONDITION:

A motion was made by Jim Bingham and seconded by Bill Mache to approve the second interim report with a positive certification. There being no further discussion, the Board voted unanimously to approve second interim.

12.5 MASTERS FACILITIES PLAN PREVIEW: Superintendent, Jared Caylor shared the following list of items that have been identified as potential facility needs. This list consists of future projects that could take up to 20 years to complete however, it would be great to identify which items should take priority and begin working on those first. There was some discussion of the larger projects such as Ag Building, Playing Fields and Parking Structure location.

Highlights

- 1. Field/Stadium Needs & Lighting
- 2. Bus Parking/Landing
- 3. Fencing
- 4. Playing Fields (turf or non-turf fields)

The Board would like to get feedback from the PE Program and Athletic Coaches. Possibly even community feedback.

Spring BBQ is coming up soon FFA week is the week after break FFA State Conference is March 26-29 FFA Regional Speaking is next Friday Drill Team is preparing for their annual dance show in May

5.2 SUPERINTENDENT Superintendent, Jared Caylor shared the following: **REPORT:**

Enrollment:	February	CUHS Centennial ISP	999 55 56
		Total:	1103

Last month may have been a mistake because the numbers were quite a bit different. Last month's total was 1078 and Superintendent, Jared Caylor will look at that a little closer.

Schools are declining in enrollment across the state. Right now the districts can average the past two years but next year if the law changes this could be an issue for many school districts. This would not have a huge effect on us, but could for other districts.

Rodgers Oversight Committee Update Loan Endowment- Eric Moxon presented Student Involvement Walnut Orchard-30-40% of trees to be grafted Olive Orchard- motor installed in well, waiting on PGE Greenhouse- should be completed by next school year Trail/Bridge-to be completed in stages R Farm Well- drilling will begin next week

Facility needs are as follows:

2

Covered gathering area Lab Classroom Bleachers HVAC in the shop Welding station Outdoor BBQ Lawn Billboard/Signage Locker room Classroom Construction

Construction Manager, Zane Schreder is working on closing out the project- we will not pay the entire amount.

Construction Manager, Zane Schreder is looking at the two options for the quad area.

Construction Manager, Zane Schreder is going to bid out the project A.S.A.P. The district has the funding so there is no need to wait.

5.3 ASSOCIATE PRINCIPAL REPORT: Associate Principal, Justine Felton shared the following:

Attendance - Percent Attend (Fall Semester - Comparison)

2016-17	95.59%
2017-18	95.86% (0.27)
2018-19	96.05% (0.19)
2019-20	97.22% (1.17)
2020-21	COVID in Person and Distance Learning
2021-2022	COVID All In Person

Lowest Attendance percentage 8/27 71.22% 1/14 81.24%

Students are placed on a contract when quarantined for COVID. Contract allows to collect ADA for students who complete work. January 3 - January 31 there were over 300 contracts Lack of direct instruction - long term effects Difference between CDC/California/Tehama County guidelines Will California hold school "hold harmless" for attendance again?

Discipline

Enforcing school rules Supporting Staff Consequences for actions (Looking) for future behavior change Providing resources and strategies for students and parents

Discipline COVID Implications

2020-21 Very little discipline

3

Small on campus population Students thankful to be in-person 2021-2022 Substantial increase 9th and 10th graders – not in a structured classroom for two years. 11th graders- only on campus 7 months (as frosh) before Closure

Discipline Implications

Vaping Bathroom Vandalism Lack of respect Inability to sit in a structured class for 60 minutes COVID fatigue- masks, quarantine, rules Social Media overload Lack of social skills

<u>Safety</u>

Site Assessment Reporting Systems School Climate Designated Staff Safety Plans

Implications- Construction delay Need to complete site assessment

Reporting Systems Bell intercom system is great and has been a huge benefit

COVID Implications with Safety

Substantial increase in high risk suicidal students and transport to Mental Health. Lack of resources Over 270 Lethality assessments in the last year. Compared to 70

Recovery Plans Summer school and night school Outside Resources Funding

Athletics

The students are participating in sports **<u>COVID Implications with Athletics</u>**

Lack of participants section wide Games moved or not played due to quarantine

Winter 1413 Covid Test from Nov 30-Feb 13 Survelliance Testing – Asymptomatic students Lack of participants section wide Transporting of teams Host Masters

Spring Fall Schedule

Coaching Staff

- 1. Coaching with grace and patience
- 2. Uphold expectations and standards
- 3. Strong "on campus" coaching
- 4. Lack of time to coach the coaches

Facilities

Grounds crew is dedicated to creating a safe and welcoming playing facility for the students. New scoreboards are coming soon

Lead Grounds Worker Custodial Maintenance

Brandon Lengtat closed by Thanking the Board for the upcoming decision for employee compensation.

6. ITEMS FOR DISCUSSION:

6.1 VACCINE MANDATE

Superintendent, Jared Caylor shared the following updates:

Bill 871 Sponsored by Richard Pon Existing law prohibits the governing authority of a school or other institution from unconditionally admitting any person as a pupil of any public or private elementary or secondary school, childcare center, day nursery, nursery school, family day care home, or development center, unless prior to their admission to that institution they have been fully immunized against various diseases, including measles, mumps, pertussis, hepatitis B, and any other disease deemed appropriate by the State Department of Public Health, as specified. Existing law authorizes an exemption from those provisions for medical reasons.

- Would add COVID Vaccine to the list of 10 required CDPH for school attendance without personal belief exemptions
- Already strong opposition lining up but there is a battle that will take place between larger, urban districts and smaller rural districts (majority of the districts have under 2500 students)

There was no public comment.

1. Is there an increase in responsibility, decision-making, or independence of action with the new job duties?

Yes X No If yes, please explain.

- a. When the teacher is handling a crisis situation or attending IEP meetings I maintain the classroom management plan and take the lead of the classroom.
- 2. Is there an increase in the extent of supervising control, authority, and responsibility? (the extent to which you direct work and/or the extent to which you work)

Yes \underline{X} No If yes, please explain.

- a. By helping implement a new program in the school, I assist in creating curriculum and behavioral plans for the students. I also have the responsibility to drive students home if a normal van driver is out of commission.
- 3. Do the new duties require additional skills, knowledge, education, certification, and/or licensing?
 - Yes X No If yes, please explain.
 - a. The restraint holds require ProAct Training and must be physically fit. Also, I have the skills to de-escalate most behavior crises and the ability to get students back to baseline.
- 5. Do new duties require additional operation of equipment or use of equipment? Yes_____No_X__ If yes, please explain.
- 6. How long have you been performing the new duties? November 1, 2021 was the SOAR Program start date and my hire date.

7. Is your supervisor aware of the new duties being performed?

Yes X No If yes, please explain.

My supervisor is aware of the various additional duties required for the position.

8. Were the new duties assigned to you by your supervisor?

Yes X No If yes, please explain.

As the program develops, my supervisor was made aware of the changes and adaptations necessary and approved.

9. Please describe how the new duties are outside of your current job description.

This program requires additional duties needed to follow IEP and behavioral plans while maintaining a safe environment. In a typical classroom, the occurrence of these behaviors would not be every day as it is in the SOAR classroom. This program is adapted from a Non-Public School service, which requires additional duties with more hands-on teaching. The hands-on approach is frequently implemented in the classroom. While creating this program from scratch, I have been helping support the teacher with documentation and further creating materials for the new classroom.

10. Is there any other information that has not been asked that will be helpful for the committee to make its decision?

In comparison to other classrooms, they may experience one or two verbal behaviors that do not involve redirecting a student to a more appropriate area. They rarely experience physical altercations with students, as I experience it on average 3-4 times a week. I am physically involved, either in proximity control and/or physical restraints that could last up to thirty-five minutes or more. So yes, some of the duties listed above do reflect what I do on a daily basis, but the intensity and frequency do not. With the understanding of this being a new program to the school, my position as an IBI Para has more responsibilities and duties required for maintaining an intense behavioral classroom.

To the best of my knowledge and belief, the above entries are accurate and complete.

RE: FORM TO RECORD DISTRICT AND/OR SCHOOL REPRESENTATIVES TO LEAGUES

DATE: APRIL 1, 2022

Enclosed is a form upon which to record your district and/or school representatives to leagues for **next year**, **2022-2023**. It is a form sent every year to you in order to obtain the names of league representatives to every league in the state and to make sure that the league representatives are designated by school district or school governing boards. It is a legal requirement that league representatives be so designated.

The education code gives the authority for high school athletics to high school governing boards. The code also requires that the boards, after joining CIF, designate their representatives to CIF leagues. This is a necessity! (Ed. Code 33353 (a) (1))

We are asking that, after action by the governing board, you **send the names of league representatives to your CIF Section office**. Obviously, the presumption behind this code section is that the representatives of boards are the <u>only</u> people who will be voting on issues, at the league and section level, that impact athletics.

If a governing board does not take appropriate action to designate representatives or this information is not given to Section offices within the required time frame, CIF is required to suspend voting privileges (CIF Constitution, Article 2, Section 25, p. 18) for the affected schools.

At the State Federated Council level, we will be asking that Sections verify that their representatives are designated in compliance with this Ed. Code section.

I hope this gives you a bit of background. Thank you for all you do to help support high school athletics. It is a valuable program in all high schools, and we appreciate the support you give to the program and to CIF.

Please return the enclosed form no later than June 28, 2022 directly to your CIF Section Office. Addresses of each section are listed on the back of the form. Please contact us if we can give you further information.

2022-2023 Designation of CIF Representatives to League

Please complete the form below for each school under your jurisdiction and **RETURN TO THE CIF SECTION** OFFICE (ADDRESSES ON REVERSE SIDE) no later than June 28, 2022.

INDEPENDENT AUDITOR'S REPORT

Board of Trustees Corning Union High School District Corning, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Corning Union High School District (the District), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

The District's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2021, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of a Matter

New Accounting Standards

During the year, the District implemented Governmental Accounting Standards Board Statement No. 84, GASB Statement No. 84, "*Fiduciary Activities*." This statement establishes criteria for identifying fiduciary activities for accounting and financial reporting purposes and describes four fiduciary funds that should be reported, if applicable. As a result, the District restated its General Fund beginning fund balance by \$223,814 to account for student body activities previously reported as agency funds that do not meet the fiduciary activity definition per GASB 84.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of pension plan contributions, schedule of proportionate share of net pension liabilities, schedule of OPEB contributions, and schedule of changes in net OPEB liability, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual nonmajor fund financial statements, as required by the Governmental Accounting Standards Board; organization schedule, schedule of instructional time, schedule of charter schools,

schedule of financial trends and analysis, and reconciliation of the Annual Financial and Budget Report to the audited financial statement, as required by the 2020-21 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting; and schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, schedule of expenditures of federal awards, schedule of instructional time, and reconciliation of the Annual Financial and Budget Report to the audited financial statements are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, schedule of expenditures of federal awards, schedule of instructional time, and the reconciliation of the Annual Financial and Budget Report to the audited financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The organization schedule, schedule of charter schools and schedule of financial trends and analysis included have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 15, 2022, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Management's Discussion and Analysis

Corning Union High School District Management's Discussion and Analysis June 30, 2021

This discussion and analysis of Corning Union High School District's (the District's) financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2021. The intent of this discussion and analysis is to look at the District's financial performance as a whole. Readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for the fiscal year 2021 are as follows:

- > Total net position increased by \$3,470,484 (38%) from June 30, 2020 to June 30, 2021, mainly due to an increase in federal and state grants.
- The District recorded deferred outflows of resources of \$3,584,889 and deferred inflows of resources of \$1,404,983 as required by GASB 68 and GASB 75 for pension and other postemployment benefit accounting and reporting. Deferred outflows of resources are technically not assets but increase the Statement of Net Position similar to an asset and deferred inflows of resources are technically not liabilities but decrease the Statement of Net Position similar to liabilities. See Note 1 in the notes to financial statements for a definition.
- ➤ The District had \$17,919,519 in government-wide expenses which is 85% of total governmentwide revenues. Program specific revenues in the form of operating grants and contributions and charges for services accounted for \$7,673,018 (36%) of the total revenues of \$21,166,189.
- ➢ General revenue of \$13,493,171, which includes property taxes, unrestricted federal and state grants and LCFF sources, was 64% of total revenues in 2021, as compared to 78% in 2020.
- > The fund balances in all funds increased by \$3,442,493, which is a 38% increase from 2020, mostly due to increases in grant funding.
- > Total governmental fund revenues and expenditures totaled \$21,166,189 and \$20,843,981, respectively.

Using the Annual Report

This annual report consists of a series of basic financial statements and notes to those statements. These statements are organized so the reader can understand Corning Union High School District as a financial whole, an entire operating entity. The statements provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities comprise the government-wide financial statements and provide information about the activities of the entire District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other non-major funds presented in total in one column. In the case of Corning Union High School District, the General Fund is by far the most significant fund.

The basic financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

Overview of the Financial Statements

The full annual financial report is a product of three separate parts: the basic financial statements, supplementary information, and this section, the Management Discussion and Analysis. These three sections together provide a comprehensive financial overview of the District. The basic financials are comprised of two kinds of statements that present financial information from different perspectives, Government-wide and funds.

- ➢ Government-wide financial statements, which comprise the first two statements, provide both short-term and long-term information about the District's overall financial position.
- Individual parts of the District, which are reported as fund financial statements, focus on reporting the District's operations in more detail. These fund financial statements comprise the remaining statements.
- Notes to the financials, which are included in the financial statements, provide more detailed data and explain some of the information in the statements. The required supplementary information section provides further explanations and provides additional support for the financial statements.

Government-wide Financial Statements - Statement of Net Position and the Statement of Activities

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during the fiscal year 2021?" The Statement of Net Position and the Statement of Activities answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting practices used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses, regardless of when cash is received or paid.

These two statements report the District's net position and changes in those assets. This change in net position is important because it tells the reader that, for the District as a whole, the financial position of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, and some not. Non-financial factors include the District's property tax base, current property tax laws in California restricting revenue growth, facility conditions, and required educational programs.

In the Statement of Net Position and the Statement of Activities, the District reports governmental activities. Governmental activities are the activities where most of the District's programs and services are reported including, but not limited to, instruction, support services, operation and maintenance of plant, pupil transportation and extracurricular activities.

Reporting the District's Most Significant Funds

Fund Financial Statements

The analysis of the District's major funds begins with the Balance Sheet. Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. These fund financial statements focus on each of the District's most significant funds. The District's major governmental funds are the General Fund, the Building Fund and the Foundation Special Revenue Fund.

Governmental Funds

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary Funds

Services for which the District charges a fee are generally reported in proprietary funds on a full accrual basis. The District did not have any proprietary funds.

Fiduciary Funds

The District is the trustee, or fiduciary, for its scholarship fund. The District's fiduciary activities are reported in separate Statements of Fiduciary Net Position. We exclude these activities from the District's other financial statements because the District cannot use these assets to finance its operations. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

The District as a Whole

Recall that the Statement of Net Position provides a perspective of the District as a whole. Table 1 provides a summary of the District's net position as of June 30, 2021 compared to June 30, 2020:

Current and other assets increased by 26% mostly due to the issuance of new bonds and additional government grants received during the year. Accordingly, capital assets increased by 22% from capital outlay related to bond spending or expenditures incurred on facility improvement programs. Current liabilities increased by 146% mostly from liabilities being paid in the Building Fund related to facilities improvements.

General Fund Budgetary Highlights

The District's budget is prepared in accordance with California law and is based on the modified accrual basis of accounting. Over the course of the year, the District revised its budget based on updated financial information. The original budget, approved at the end of June for July 1, is based on May Revise figures and updated 45 days after the State approves its final budget. In addition, the District revised its budget at First and Second Interim. The original budget presented in the required supplementary information section includes only new revenues for 2021. During the budget revision process the District accounts for prior year ending balances by budgeting to use the carryover. Budgeted revenue increased by \$3,122,898 from adopted to final and budgeted expenditures increased by \$3,476,224 from adopted to final during the year.

Factors Bearing on the District's Future

At the time these financial statements were prepared and audited, the District was aware of the following circumstances that could significantly affect its financial health in the future:

- Due to the pandemic and learning loss students are experiencing from it, considerable resources were spent in the area of additional teachers, and support services. The district is concerned about the potential funding cliff that may happen in a couple of years as the one-time COVID relief money from the state and federal government runs out and declining enrollment sets in.
- The district continues to find ways in making progress towards their facility master plan. The district has been approved for additional Modernization funds. It is likely that the state will place a facilities bond on the November 2022 ballot. If so, and it passes, the district would be in line to receive funding.
- The increase in the supplemental/concentration rate for the Local Control Funding Formula allowed the district to increase its staff in addressing the needs of students. The Governor's 2022-2023 budget proposal will increase LCFF further.
- The district's Special Education enrollment continues to increase. In addition to the increase, the district has seen a trend in parents of students with disabilities filing claims for fair hearings. This trend is not unique to the District. Both of these factors have resulted in an increase to Special Education expenditure
- Special education costs continue to increase.
- District enrollment is no longer declining.
- There may be unpredictable increases in fuel and electric costs.
- Continued increases to CalSTRS and CalPERS retirement costs.
- Annual minimum wage increases.

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

A. Accounting Principles

The Corning Union High School District (the "District") accounts for its financial transactions in accordance with the policies and procedures of the Department of Education's *California School Accounting Manual*. The accounting policies of the district conform to generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB) and the American Institute of Certified Public Accountants (AICPA).

B. <u>Reporting Entity</u>

The District is the level of government primarily accountable for activities related to public education. The governing authority consists of five elected officials who, together, constitute the Board of Trustees. The District's combined financial statements include the accounts of all its operations. The District evaluated whether any other entity should be included in these financial statements using the criteria established by GASB. The basic, but not the only, criterion for including a governmental department, agency, institution, commission, public authority, or other governmental organization in a governmental unit's reporting entity for general purpose financial reports is the ability of the governmental unit's elected officials to exercise oversight responsibility over such agencies. Oversight responsibility implies that one governmental unit is dependent on another and that the dependent unit should be reported as part of the other. Oversight responsibility is derived from the governmental unit's power and includes, but is not limited to:

- Financial interdependency
- Selection of governing authority
- Designation of management
- Ability to significantly influence operations
- Accountability for fiscal matters

Accordingly, for the year ended June 30, 2021, the District is financially accountable for the Corning Union High School Master Endowment Trust (the Trust) and has included the Trust's financial information in the Foundation Special Revenue Fund as a blended component unit. The Trust is a tax-exempt corporation under Internal Revenue Code, Section 501(c)(3) and was formed to manage the bequest of Rodgers Ranch to the District. The purpose of the Trust is to maintain Rodgers Ranch, promote agriculture education at the District, and to provide scholarships to District students. The scholarship portion of the Trust is reported as a private-purpose trust fund, and the remaining portion of the Trust is reported as the Foundation Special Revenue Fund in the District's financial statements. Individually prepared financial statements are not available for the Trust. The District does not have any other component units and is not a component unit of any other reporting entity.

C. Basis of Presentation

Government-wide Financial Statements:

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the District. The Statement of Net Position reports all assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position.

CORNING UNION HIGH SCHOOL DISTRICT NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund and fiduciary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements, therefore, include the reconciliation with brief explanations to better identify the relationship between the government wide statements and the statements for the governmental funds.

The government-wide Statement of Activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are therefore clearly identifiable to a particular function. The District does not allocate indirect expenses to functions in the statement of activities. Program revenues include charges paid by the recipients of goods or services offered by a program, as well as grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues of the District, with certain exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements:

Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major governmental fund is presented in a separate column, and all nonmajor funds are aggregated into one column. Fiduciary funds are reported by fund type.

The accounting and financial treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets, deferred outflows of resources, current liabilities and deferred inflows of resources are generally included on the balance sheet. The Statement of Revenues, Expenditures, and Changes in Fund Balances for these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

Fiduciary funds are reported using the economic resources measurement focus except for agency funds, which have no measurement focus.

D. Basis of Accounting

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds use the accrual basis of accounting.

Revenues – Exchange and Non-exchange Transactions:

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded under the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Available" means the resources will be collected within the current fiscal year or are

CORNING UNION HIGH SCHOOL DISTRICT NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. To achieve comparability of reporting among California districts, and so as not to distort normal revenue patterns with specific respect to reimbursement grants and correction to state-aid apportionments, the California Department of Education has defined available for district as collectible within one year.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, and entitlements. Under the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and entitlements is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are to be used or the fiscal year when use is first permitted; matching requirements, in which the District must provide local resources to be used for a specific purpose; and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. Under the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Deferred Outflows/Deferred Inflows:

In addition to assets, the Statement of Net Position includes a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s), and as such will not be recognized as an outflow of resources (expense/expenditures) until then. The District has recognized a deferred outflow of resources related to the recognition of the net pension liability and net OPEB liability reported in the Statement of Net Position.

In addition to liabilities, the Statement of Net Position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and as such, will not be recognized as an inflow of resources (revenue) until that time. The District has recognized a deferred inflow of resources related to the recognition of the District's benefit plans liability reported which is in the Statement of Net Position.

Unearned Revenue:

Unearned revenue arises when assets, such as cash, are received before revenue recognition criteria have been satisfied. Grants and entitlements received before eligibility requirements, such as qualified expenditures, are met are recorded as liabilities from unearned revenue.

Unavailable Revenue:

In the governmental fund financial statements, receivables associated with non-exchange transactions that will not be collected within the availability period have been recorded as deferred inflows of resources as unavailable revenue.

Expenses/Expenditures:

On the accrual basis of accounting, expenses are recognized at the time a liability is incurred. On the modified accrual basis of accounting, expenditures are generally recognized in the accounting period in which the related fund liability is incurred, as under the accrual basis of accounting. However,

CORNING UNION HIGH SCHOOL DISTRICT NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2021

under the modified accrual basis of accounting, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

E. Fund Accounting

The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows, liabilities, deferred inflows, fund equity or retained earnings, revenues, and expenditures or expenses, as appropriate. District resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The District's accounts are organized into major, nonmajor, and fiduciary funds as follows:

Major Governmental Funds:

The *General Fund* is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

The *Building Fund* is used to account for proceeds from the sale of real property and account for the acquisition of major governmental capital facilities and buildings from the sale of bond proceeds.

The *Foundation Special Revenue Fund* is used to account for resources received from gifts or bequests pursuant to California Education Code, Section 41031, under which both earnings and principal may be used for purposes that support the District's own programs.

Non-major Governmental Funds:

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are restricted or committed for purposes other than debt service or capital projects. The restricted or committed resources need to comprise a substantial portion of the inflows reported in the special revenue fund. The District maintains the following non-major special revenue funds:

- The *Adult Education Fund* is used to account for resources committed to adult education programs maintained by the District.
- The *Cafeteria Fund* is used to account for revenues received and expenditures made to operate the District's food service programs.
- The *Deferred Maintenance Fund* is used for the purpose of major repair or replacement of District property.

Capital Projects Funds are used to account for resources restricted, committed or assigned for capital outlays. The District maintains the following non-major capital projects funds:

• The *Capital Facilities Fund* is used to account for resources received from developer impact fees assessed under provisions of the California Environmental Quality Act (CEQA).

• The *County School Facilities Fund* was established to receive apportionments from the State Schools Facilities Fund authorized by the State Allocation Board for new school facility construction, modernization projects and facility hardship grants.

Debt Service Funds are established to account for the accumulation of resources for the payment of the principal and interest on long-term debt.

• The *Bond Interest and Redemption Fund* is maintained by the County Treasurer and is used to account for both the accumulation of resources from ad valorem tax levies and the interest and redemption of principal of the funding of general obligation bonds issued by the District.

Fiduciary Funds:

Fiduciary Fund reporting focuses on net position and changes in net position. Fiduciary funds are used to report assets held in a trustee or agency capacity for others and therefore cannot be used to support the District's own programs.

The District maintains the following fiduciary funds:

• Foundation Private-Purpose Trust Funds are used to account for assets held by the District as trustee pursuant to formal agreements with donors and under which neither principal nor income may be used for purposes that support the District's own programs. The Foundation Private-Purpose Trust Fund is used to account separately for gifts or bequests that provide scholarships to students of the District.

F. Budgets and Budgetary Accounting

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. By state law, the District's governing board must adopt a final budget no later than July 1. A public hearing must be conducted to receive comments prior to adoption. The District's governing board satisfied these requirements.

These budgets are revised by the District's governing board and District Superintendent during the year to give consideration to unanticipated income and expenditures. The original and final revised budgets for the General Fund and major special revenue funds are presented as Required Supplementary Information.

Formal budgetary integration was employed as a management control device during the year for all budgeted funds. The District employs budget control by minor object and by individual appropriation accounts. Expenditures cannot legally exceed appropriations by major object account.

G. Encumbrances

Encumbrance accounting is used in all budgeted funds to reserve portions of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts, and other commitments when they are written. Encumbrances are liquidated when the commitments are paid. All encumbrances are liquidated on June 30.

H. Benefit Plans

Pensions:

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the District's California Public Employees' Retirement System (CalPERS) and California State Teachers' Retirement System (CalSTRS) plans and additions to/deductions from the plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS and CalSTRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

GASB Statement No. 68, Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27 requires that the reported results must pertain to liability and asset information within certain defined time frames. For this period, the following time frames were used:

Valuation Date	June 30, 2019
Measurement Date	June 30, 2020
Measurement Period	July 1, 2019 to June 30, 2020

Other Postemployment Benefits Other Than Pensions (OPEB):

For purposes of measuring the total OPEB liability, deferred outflows of resources and deferred inflows of resources, and OPEB expense, information about the District's Retiree Benefits Plan (the OPEB Plan) and additions to/deductions are based on when they are due and payable in accordance with the benefit terms for the measurement period included in the OPEB plan's actuarial reports.

Measurement Date	June 30, 2021
Measurement Period	July 1, 2020 to June 30, 2021

I. Assets, Liabilities, and Equity

1. <u>Cash and Investments</u>

Cash balances held in banks and in revolving funds are insured to \$250,000 by the Federal Deposit Insurance Corporation.

In accordance with *Education Code* Section 41001, the District maintains substantially all of its cash in the County Treasury. The county pools these funds with those of other districts in the county and invests the cash. These pooled funds are carried at cost, which approximates market value. Interest earned is deposited quarterly into participating funds. Any investment losses are proportionately shared by all funds in the pool.

All district-directed investments are governed by Government Code Section 53601 and Treasury investment guidelines. The guidelines limit specific investments to government securities, domestic chartered financial securities, domestic corporate issues, and California municipal securities. The District's securities portfolio is held by the County Treasurer. Interest earned on investments is recorded as revenue of the fund from which the investment was made.

The county is authorized to deposit cash and invest excess funds by California Government Code Section 53648. The funds maintained by the county are either secured by federal depository insurance or are collateralized.

2. Fair Value Measurements

Investments are recorded at fair value in accordance with GASB Statement No. 72, *Fair Value Measurement and Application*. Accordingly, the change in fair value of investments is recognized as an increase or decrease to investment assets and investment income. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction.

In determining this amount, three valuation techniques are available:

- Market approach This approach uses prices generated for identical or similar assets or liabilities. The most common example is an investment in a public security traded in an active exchange such as the NYSE.
- Cost approach This technique determines the amount required to replace the current asset. This approach may be ideal for valuing donations of capital assets or historical treasures.
- Income approach This approach converts future amounts (such as cash flows) into a current discounted amount.

Each of these valuation techniques requires inputs to calculate a fair value. Observable inputs have been maximized in fair value measures, and unobservable inputs have been minimized.

3. Stores Inventories and Prepaid Expenditures

Store Inventories:

Stores inventories consist of supplies and materials. Expenses are recorded as the supplies and materials are consumed. Inventories are valued on the average cost method for purchased supplies and materials. Donated commodities inventory is valued at its fair value at the time of donation. Reported inventories are equally offset by a fund balance reserve, which indicates that these amounts are not "available for appropriation and expenditure" even though they are a component of net current assets.

Prepaid Expenditures:

The District has the option of reporting expenditure in governmental funds for prepaid items either when purchased or during the benefiting period. The District has chosen to report the expenditure during the benefiting period.

4. Capital Assets

Capital assets, which include sites, improvement of sites, buildings and improvements, equipment, and construction in progress, are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of

\$25,000 or more and an estimated useful life in excess of one year, except for buildings and improvements for which a higher capitalization threshold of \$50,000 or more is used. All fixed assets are valued at historical cost, or estimated historical cost if actual is unavailable, except for donated fixed assets, which are recorded at their estimated fair value at the date of donation.

Projects under construction are recorded at cost as construction in progress and transferred to the appropriate asset account when substantially complete. Costs of major improvements and rehabilitation of buildings are capitalized. Repair and maintenance costs are charged to expense when incurred. Equipment disposed of, or no longer required for its existing use, is removed from the records at actual or estimated historical cost, net of accumulated depreciation.

Depreciation of all exhaustible fixed assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation reflected in the statement of net position. All capital assets, except land and construction in progress, are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
School buildings	10-50
Portable buildings	25
Site improvements	20
Vehicles	8-20
Equipment	5-20

5. Compensated Absences

The liability for earned but unused vacation leave is recorded as long-term debt for compensated absences in the government-wide statements. The current portion of this debt is estimated based on historical trends. In the fund financial statements, governmental funds report only the compensated absence liability payable from expendable available financial resources.

6. Long-Term Liabilities

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the Statement of Net Position. Bond premiums and discounts as well as issuance costs if related to prepaid insurance costs, are deferred and amortized over the life of the bonds. Bonds payable are reported net of applicable bond premium or discount. Issuance costs, not related to prepaid insurance costs, are expensed in the period incurred.

In the fund financial statements, governmental funds recognize bond premiums and discounts as well as bond issuance costs, during the current period. The face amount of the debt issued, premiums, or discounts are reported as other financing sources or uses.

7. Fund Balance Classifications

The District is committed to maintaining a prudent level of financial resources to protect against the need to reduce service levels because of temporary revenue shortfalls or unpredicted expenditures. The District's minimum fund balance policy requires a reserve for economic uncertainties, consisting of unassigned amounts, equal to no less than three percent of general fund operating expenditures and other financing uses. In accordance with Government Accounting Standards Board 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the District classifies governmental fund balances as follows:

- *Non-spendable* fund balance includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual constraints.
- *Restricted* fund balance includes amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation.
- *Committed* fund balance includes amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision-making authority and does not lapse at year-end. Committed fund balances are imposed by the District's board of education.
- *Assigned* fund balance includes amounts that are intended to be used for specific purposes that are neither considered restricted or committed. Fund balance may be assigned by the District's Board of Trustees or a designee of the District's Board of Trustees.
- Unassigned fund balance includes positive amounts within the general fund which has not been classified within the above-mentioned categories and negative fund balances in other governmental funds.

The District uses restricted/committed amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as a grant agreement requiring dollar for dollar spending. Additionally, the District would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

8. <u>Net Position</u>

Net position represents the difference between assets, deferred outflows, liabilities and deferred inflows. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. In addition, deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt also are included in the net investment in capital assets component of net position. As of June 30, 2021, capital assets net of accumulated depreciation totaling \$21,330,462 was reduced by related debt of \$9,998,729, which excluded premiums attributed to cash reserves for debt service of \$596,706.

Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, laws or regulations of other governments. The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Capital Projects restrictions will be used for the acquisition and construction of capital facilities.

Charter School Programs restrictions reflect the cash balances in the charter schools fund that are restricted to the charter school programs.

Cafeteria program restrictions reflect the amounts to be expended for federal and state funded school lunch and breakfast programs.

Educational Programs restrictions reflect the amounts to be expended for federal and state funded educational programs.

Debt service restrictions reflect the cash balances in the debt service funds that are restricted for debt service payments by debt covenants, as applicable.

Unrestricted net position reflects amounts that are not subject to any donor-imposed restrictions. This class also includes restricted gifts whose donor-imposed restrictions were met during the fiscal year. A deficit unrestricted net position may result when significant cash balances restricted for capital projects exist. Once the projects are completed, the restriction on these assets are released and converted to capital assets.

9. Local Control Funding Formula and Property Taxes

The Local Control Funding Formula (LCFF) creates base, supplemental, and concentration grants in place of most previously existing K-12 funding streams, including revenue limits general purpose block grants, and most of the 50-plus state categorical programs. The revenue limit was a combination of local property taxes, state apportionments, and other local sources.

The county is responsible for assessing, collecting, and apportioning property taxes. Taxes are levied for each fiscal year on taxable real and personal property in the county. The levy is based on the assessed values as of the preceding March 1, which is also the lien date. Property taxes on the secured roll are due on August 31 and February 1, and taxes become delinquent after December 10 and April 10, respectively. Property taxes on the unsecured roll are due on the lien date (March 1), and become delinquent if unpaid by August 31.

Secured property taxes are recorded as revenue when apportioned, in the fiscal year of the levy. The county apportions secured property tax revenue in accordance with the alternate method of distribution prescribed by Section 4705 of the California *Revenue and Taxation Code*. This alternate method provides for crediting each applicable fund with its total secured taxes upon completion of the secured tax roll - approximately October 1 of each year. The County Auditor reports the amount of the District's allocated property tax revenue to the California Department of Education. Property taxes are recorded as local revenue limit sources by the District.

10. Risk Management

The District is exposed to various risks, including loss or damage to property, general liability, and injuries to employees. The District participates in risk pools under joint powers agreements for property, liability, workers' compensation, health care, and excess liability coverage. Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three years and there were no significant reductions in insurance coverage from coverage in the prior year.

11. Interfund Transactions

Interfund transactions are reported as either loans, services provided, reimbursements, or transfers. Loans are reported as interfund receivables and payables, as appropriate, and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund, and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers among governmental funds are eliminated as part of the reconciliation to the government-wide financial statements.

12. Eliminations and Reclassifications

In the process of aggregating data for the Statement of Net Position and the Statement of Activities, some amounts reported as interfund activity and balances in the funds were eliminated and reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities within the governmental activities column.

13. Accounting Estimates

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

J. Implemented Accounting Pronouncements

GASB Statement No. 84, "Fiduciary Activities." Issued in January 2017, this statement establishes criteria for identifying fiduciary activities for accounting and financial reporting purposes and describes four fiduciary funds that should be reported, if applicable. The statement is effective beginning fiscal year 2021. Items previously reported as part of the agency fund classification of the Fiduciary Funds statements were reviewed to evaluate if they met the new custodial funds criteria. The District reclassified \$223,814 related to student body funds previously reported as Agency funds. The student body funds were evaluated to determine if they were custodial funds as identified by GASB 84, but did not meet the definition of custodial funds and were identified as non-fiduciary.

K. Upcoming Accounting and Reporting Changes

The District is currently analyzing its accounting practices to determine the potential impact on the financial statements of the following recent GASB Statements:

GASB Statement No. 87, "Leases." Issued in June 2017, this statement establishes standards of accounting and financial reporting for leases by lessees and lessors. It provides guidance on accounting treatment of lease assets, lease liability, short-term leases, certain regulated leases, measurement for leases other than short-term leases and contracts that transfer ownership, subleases, lease-leaseback transactions, intra-entity leases, and leases between related parties. The statement will be effective beginning fiscal year 2022.

GASB Statement No. 91, "Conduit Debt Obligations." Issued in May 2019, this statement provides a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. The statement will be effective beginning fiscal year 2023.

GASB Statement No. 92, "Omnibus 2020." Issued in January 2020, this statement was issued for clarity and consistency by addressing practice issues identified from the implementation and application of certain GASB statements. The statement will be effective beginning fiscal year 2022.

GASB Statement No. 93, "Replacement of Interbank Offered Rates." Issued in March 2020, this statement is to address accounting and financial reporting implications that result from the replacement of an interbank offered rate (IBOR) such as the London Interbank Offered Rate (LIBOR). As a result of global reference rate reform, LIBOR is expected to cease to exist in its current form at the end of 2021. The statement will be effective beginning fiscal year 2022.

GASB Statement No. 94, "Public-Private and Public-Public Partnerships and Availability Payment Arrangements." Issued in March 2020, this statement is to improve financial reporting by establishing the definitions of public-private and public-public partnership arrangements (PPPs) and available payment arrangement (APAs) and providing uniform guidance on accounting and financial reporting for transactions that meet those definitions. The statement will be effective beginning fiscal year 2023.

GASB Statement No. 96, "Subscription-Based Information Technology Arrangements." Issued in May 2020, the statement provides guidance on the accounting and financial reporting for subscription based information technology arrangements (SBITAs) for governments by (1) defining a SBITA, (2) establishing that a SBITA results in a right-to-use subscription asset-an intangible asset-and a corresponding subscription liability, (3) providing the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA, and (4) requiring note disclosures regarding a SBITA. The statement will be effective beginning fiscal year 2023.

GASB Statement No. 97, "Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans—an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32." Issued in June 2020, the statement will result in more consistent financial reporting of defined contribution pension plans, defined contribution OPEB plans, and other employee benefit plans (e.g., certain Section 457 plans), while mitigating the costs associated with reporting those plans. The statement will be effective beginning fiscal year 2022.

NOTE 2 - CASH AND INVESTMENTS

Summary of Deposits

A summary of deposits as of June 30, 2021, is as follows:

Total Cash and Investments	\$ 351,879	\$ 288,023

Cash in banks and revolving funds

As of June 30, 2021, the bank balances of the District's accounts totaled \$347,762, which was fully insured by FDIC. FDIC covers up to \$250,000 per issuer, per bank.

Fair Value Measurements

GASB 72 established a hierarchy of inputs to the valuation techniques above. This hierarchy has three levels:

- Level 1 inputs are quoted prices in active markets for identical assets or liabilities.
- Level 2 inputs are quoted market prices for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other than quoted prices that are not observable.
- Level 3 inputs are unobservable inputs, such as a property valuation or an appraisal.

The District has the following recurring fair value measurements as of June 30, 2021:

Investments in the Tehama County Treasury Investment Pool are not measured using the input levels above because the District's transactions are based on a stable net asset value per share. All contributions and redemptions are transacted at \$1.00 net asset value per share.

Cash in County Treasury

The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer in accordance with Education Code Section 41001. The fair value of the District's investment in the pool is reported in the accounting financial statements at amounts based upon the District's pro rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

Policies and Practices

The District is authorized under California Government Code Section 53635 to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; and collateralized mortgage obligations.

Limitations as they relate to interest rate risk, credit risk, custodial credit risk – deposits, and concentration of credit risk are described below:

1. Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District manages its exposure to interest rate risk by investing in the County Treasury. The District maintains an investment with the Tehama County Investment Pool with a fair value of approximately \$191.2 million and an amortized book value of \$188.5 million.

2. Credit Risk

Credit risk is the risk of loss due to the failure of the security issuer. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The investment with the Tehama County Investment Pool is governed by the County's general investment policy. The investment with the Tehama County Investment Pool is rated at least BBB by Standards & Poor's Investor Service.

3. Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk for deposits. However, the California Government code requires that a financial institution secure deposits made by State or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under State law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agencies. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits.

4. Concentration of Credit Risk

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond the amount stipulated by the California Government code. District investments that are greater than 5 percent of total investments are in either an external investment pool or mutual funds and are therefore exempt.

NOTE 3 - ACCOUNTS RECEIVABLE

	General	Nonmajor		
Receivables	Fund		Funds	Total
Unrestricted	\$ 1,288,326	\$	36,000	\$ 1,324,326

Totals	\$ 3,648,832	\$	154,186	\$ 3,803,018

Accounts receivable consisted of the following as of June 30, 2021:

NOTE 4 - INTERFUND TRANSACTIONS

Interfund transactions are reported as loans, services provided, reimbursements, or transfers. Loans are reported as interfund receivables and payables (Due From/To), as appropriate, and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund, and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers among governmental funds are netted as part of the reconciliation to the government-wide financial statements.

As of June 30, 2021, interfund receivables and payables were as follows:

Fund	D	ue From	 Due To
General Fund	\$	36,698	\$ 725,892
Building Fund		6,239	5,182
Foundation Fund		-	12,687
Nonmajor Funds		724,835	 24,011
Totals	\$	767,772	\$ 767,772

Interfund transfers consist of operating transfers from funds receiving revenues to funds through which the resources are to be expended. There were no interfund transfers for fiscal year 2020-2021.

Total Long-term Liabilities	\$23,204,340	\$ 8,087,476	\$ 4,440,398	\$26,851,418	\$	299,836

Payments on the general obligation bonds are made by the Bond Interest and Redemption Fund from local revenues. Capital leases, note payable, and the line of credit are paid out of the General Fund. The retirement incentives, compensated absences, net pension liabilities and other postemployment benefits will be paid by the fund for which the employee worked.

NOTE 7 - GENERAL OBLIGATION BONDS

In November 2016, the District received authorization through Measure K to issue \$8,300,000 of bonds. The bonds are general obligation bonds of the District, and the County is obligated to annually levy ad valorem taxes for the payment of interest on, and the principal of, the bonds. Bond proceeds are to be used to improve the quality of education by repairing and replacing leaky roofs; making health, safety, and security improvements; updating inadequate electrical and technology infrastructure; modernizing and renovating outdated classrooms, restrooms, and school facilities; and replacing temporary portables with permanent classrooms.

In April of 2017, the District issued \$3,000,000 of 2017 Series A General Obligation Bonds, under the Measure K authorization, to finance the acquisition, construction, furnishing and equipping of District facilities. The bonds were issued with \$123,251 in premiums, and issuance costs of \$118,315. The bonds bear fixed interest rates ranging between 3.0% and 5.0% with annual maturities from August 1, 2018 through August 1, 2046.

In November of 2018, the District issued \$2,700,000 of 2018 Series B General Obligation Bonds, under the Measure K authorization, to finance the acquisition, construction, furnishing and equipping of District facilities. The bonds were issued with \$142,085 in premiums, and issuance costs of \$199,728. The bonds bear fixed interest rates ranging between 4.0% and 5.3% with annual maturities from August 1, 2020 through August 1, 2048.

In July of 2020, the District issued \$2,600,000 of 2020 Series C General Obligation Bonds, under the Measure K authorization, to finance the acquisition, construction, furnishing and equipping of District facilities. The bonds were issued with \$352,643 in premiums, and issuance costs of \$206,172. The bonds bear fixed interest rates ranging between 4.0% and 5.0% with annual maturities from August 1, 2021 through August 1, 2049.

The outstanding General Obligation Bond debt of the District as of June 30, 2021, is as follows:

NOTE 8 - CAPITAL LEASES

The District leases equipment under agreements which provide for title to pass upon expiration of the lease period. The cost of the equipment is included in vehicles and equipment on the statement of net position as depreciated capital assets. As of June 30, 2021, the principal balance outstanding was \$6,559. The amount of interest cost incurred during the year ended June 30, 2021, was \$1,011, all of which was charged to expenses.

NOTE 9 - NOTE PAYABLE

In November 2013, the District was selected to receive a loan under the provisions of California Education Code, Section 17456, totaling \$2,864,000 to be used toward solar panel construction. The loan bears interest at 1.5%. At June 30, 2021, the principal balance outstanding was \$2,152,170. The amount of interest cost incurred during the year ended June 30, 2021, was \$33,471, all of which was charged to expenses.

Future minimum debt service payments on the note are as follows:

Fiscal Year						
Ending June 30,	Principal	Interest	Total

Total	\$ 2,152,170	\$ 186,316	\$	2,338,486		

NOTE 10 - JOINT VENTURES (JOINT POWERS AGREEMENTS)

The District participates in joint ventures under joint powers agreements with the following joint powers authorities (JPAs): Northern California Schools Insurance Group (NCSIG), North Valley Schools Insurance Group (NVSIG), California's Valued Trust (CVT), Schools Excess Liability Fund (SELF), Northern California Regional Liability Excess Fund (ReLiEF), and Tri-County Schools Insurance Group (TCSIG). The relationship between the District and the JPAs is such that the JPAs are not component units of the District for financial reporting purposes.

The JPAs arrange for and provide property, liability, health care, workers' compensation, and excess liability coverage for their members. Each JPA is governed by a board consisting of representatives from the members. The boards control the operations of the JPAs, including selection of management and approval of operating budgets, independent of any influence by the members beyond their representation on the boards. Each member pays a premium commensurate with the level of coverage requested and shares surpluses and deficits proportionate to its participation in the JPA. The District's share of year-end assets, liabilities, or fund equity is not calculated by the JPAs. Separately issued financial statements can be requested from each JPA.

NOTE 11 - COMMITMENTS AND CONTINGENCIES

State and Federal Allowances, Awards, and Grants

The District has received federal and state funds for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could generate expenditure disallowances under terms of the grants, it is believed that any required reimbursement will not be material.

Litigation

The District is involved in certain legal matters that arose out of the normal course of business. The District has not accrued a liability for any potential litigation against it because it does not meet the criteria to be considered a liability at June 30, 2021.

NOTE 12 - EMPLOYEE RETIREMENT SYSTEMS

Qualified employees are covered under cost-sharing, multi-employer defined benefit pension plans maintained by agencies of the State of California. Classified employees are members of the California Public Employees' Retirement System (CalPERS), and certificated employees are members of the California State Teachers' Retirement System (CalSTRS).

For the fiscal year ended June 30, 2021, the District reported net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense for CalPERS and CalSTRS as follows:

California Public Employees Retirement System (CalPERS/PERS) Pension Plan

General Information about the PERS Pension Plan

Plan Description - All qualified permanent and probationary employees are eligible to participate in the District's CalPERS Employee Pension Plan (the Plan), a cost-sharing multiple employer defined benefit pension plans administered by the California Public Employees' Retirement System (CalPERS). Benefit provisions under the Plans are established by State statute and District resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website.

Benefits Provided - CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for the Plan are applied as specified by the Public Employees' Retirement Law.

The Plans' provisions and benefits in effect at June 30, 2021, are summarized as follows:

	CalPERS			
	Classic	PEPRA		
Benefit formula	2% @ 55	2% @ 62		
Benefit vesting schedule	5 Years	5 Years		
Benefit payments	Monthly for Life	Monthly for Life		
Retirement age: minimum	50	52		
Monthly benefits as a % of eligible compensation	(1)	(1)		
Required employee contribution rates	7.000%	7.000%		
Required employer contribution rates	20.700%	20.700%		

(1) Monthly benefit is a product of benefit factor, years of service, and final compensation

Contributions - Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for the Plan are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

For the year ended June 30, 2021, the District's contributions were as follows:

Employer Contributions	\$	545,606

Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to PERS

As of June 30, 2021, the District reported net pension liabilities for its proportionate shares of the net pension liability of the Plan as follows:

	Proportionate Share		
	of Net Pension		
	Liability/(Asset)		
CalPERS	\$	5,474,168	

The District's net pension liability for the Plan is measured as the proportionate share of the net pension liability. The net pension liability of the Plan is measured as of June 30, 2020, and the total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2019 rolled forward to June 30, 2020 using standard update procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined.

The District's proportionate share of the net pension liability for the Plan as of measurement dates, June 30, 2020 and 2021, was as follows:

~ ~ ~ ~ ~

	CalPERS
Proportion - June 30, 2020	0.01789%
Proportion - June 30, 2021	0.01784%
Change - Increase/(Decrease)	-0.00005%

For the year ended June 30, 2021, the District recognized pension expense of \$1,110,588 for the Plan.

At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

The District reported \$545,606 as deferred outflows of resources related to contributions subsequent to the measurement date that will be recognized as a reduction of the net pension liability in the year ended

June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Actuarial Assumptions - The total pension liabilities in the June 30, 2019 actuarial valuations were determined using the following actuarial assumptions:

June 30, 2019

(1)
7.15% (2)
(3)

(1) Varies by entry age and service

(2) Net of pension plan investment expenses, including inflation

(3) Derived using CalPERS' membership data for all funds

Discount Rate - The discount rate used to measure the total pension liability was 7.15%. To determine whether the municipal bond rate should be used in the calculation of a discount rate for the Plan, CalPERS stress tested employer rate plans within the Plan that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested employer rate plans run out of assets. Therefore, the current 7.15% discount rate is adequate and the use of the municipal bond rate calculation is not necessary. The stress test results are presented in a detailed report, GASB Statements 67 and 68 Crossover Testing Report for Measurement Date June 30, 2020 based on June 30, 2019 Valuations, that can be obtained from the CalPERS website.

According to Paragraph 30 of GASB 68, the long-term discount rate should be determined without reduction for pension plan administrative expense. For the CalPERS Plan, the 7.00% investment return assumption used in this accounting valuation is net of administrative expenses. Administrative expenses are assumed to be 15 basis points. An investment return excluding administrative expenses would have

been 7.15%. Using this lower discount rate has resulted in a slightly higher total pension liability and net pension liability. CalPERS checked the materiality threshold for the difference in calculation and did not find it to be a material difference.

In the December 2016 and April 2017 meetings, the Board voted to lower the funding discount rates used for the PERF. In making its decision, the Board reviewed recommendations from CalPERS team members, external pension and investment consultants, and input from employer and employee stakeholder groups. A lowered funding discount rate for the PERF will be phased in over a three-year period beginning July 1, 2018 for public agencies and school districts.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short- term and long-term market return expectations as well as the expected pension fund cash flows. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the Plan's asset classes, expected compound (geometric) returns were calculated over the short-term (first 11 years) and the long-term (60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for the Plan. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These geometric rates of return are net of administrative expenses.

California State Teachers' Retirement System (STRS) Pension Plan

General Information about the STRS Pension Plan

Plan Description - The District contributes to the State Teachers' Retirement System (STRS), a costsharing multiple-employer public employee retirement system defined benefit pension plan administered by STRS. The plan provides retirement, disability, and survivor benefits to beneficiaries. Benefit provisions are established by state statutes, as legislatively amended, within the State Teachers' Retirement Law. STRS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information.

Benefits Provided - STRS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment. The cost of living adjustments for the Plan are applied as specified by the retirement Law.

The Plan's provisions and benefits in effect at June 30, 2021, are summarized as follows:

	CalSTRS		
	Tier 1	Tier 2	
Benefit formula	2% @ 60	2% @ 62	
Benefit vesting schedule	5 Years	5 Years	
Benefit payments	Monthly for Life	Monthly for Life	
Retirement age:	60	62	
Monthly benefits as a % of eligible compensation	2%	2%

Required employer contribution rates	16.150%	16.150%	
Required State contribution rates	10.328%	10.328%	

Contributions - As part of the annual valuation process, the Normal Cost rate is determined as the basis for setting the base member contribution rate for the following fiscal year. Generally, the base member contribution rate is one-half of the Normal Cost rate within certain parameters. Required member, employer and state contribution rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. Contribution rates are expressed as a level percentage of payroll using the entry age normal actuarial cost method.

For the year ended June 30, 2021 the District's contributions were as follows:

	CalSTRS	
Employer Contributions	\$	843,799
State Contributions		513,282
Total	\$	1,357,081

Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to STRS

As of June 30, 2021, the District reported net pension liabilities for its proportionate shares of the net pension liability of the Plan as follows:

	of	Proportionate Share of Net Pension Liability/(Asset)	
District	\$	8,721,810	
State		4,496,093	
Total	\$	13,217,903	

The District's net pension liability for the Plan is measured as the proportionate share of the net pension liability. The net pension liability of the Plan is measured as of June 30, 2020, and the total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2019 rolled forward to June 30, 2020 using standard update procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. The state contributed 10.47 percent of the members' creditable earnings from the fiscal year ending in the prior calendar year. Also, as a result of AB 1469, the additional state appropriation required to fully fund the benefits in effect as of 1990 by 2046 is specific in subdivision (b) of Education Code Section 22955.1. The increased contributions end as of fiscal year 2045-2046.

The District's proportionate share of the net pension liability for the Plan as of measurement dates, June 30, 2020 and 2021, was as follows:

	CalSTRS
Proportion - June 30, 2020	0.00900%
Proportion - June 30, 2021	0.00900%
Change - Increase/(Decrease)	0.00000%

For the year ended June 30, 2021, the District recognized pension expense of \$1,806,956 for the Plan, of which, a total of \$513,282 came from state contributions.

At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

The District reported \$843,799 as deferred outflows of resources related to contributions subsequent to the measurement date that will be recognized as a reduction of the net pension liability in the year ended June 30, 2022.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Actuarial Assumptions - The total pension liabilities in the June 30, 2019 actuarial valuations were determined using the following actuarial assumptions:

Valuation Date	June 30, 2019
Measurement Date	June 30, 2020
Actuarial Cost Method	Entry-Age Normal Cost Method
Actuarial Assumptions:	
Discount Rate	7.10%

- (2) Net of investment expense but gross of administrative expenses.
- (3) Based on 110% of the MP-2016 Ultimate Projection

Discount Rate - The discount rate used to measure the total pension liability was 7.10 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at statutory contribution rates in accordance with the rate increases per AB 1469. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10 percent) and assuming that contributions, benefit payments, and administrative expense occur midyear. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These rates of return are net of administrative expenses.

	Assumed Asset	Long-Term Expected Real Rate

NOTE 13 - POSTEMPLOYMENT HEALTHCARE PLAN (OPEB)

Plan Description and Benefits - The District currently provides retiree medical, dental, and vision benefits. The Plan is a single-employer defined benefit healthcare plan administered by the District. These benefits are offered as a package through California's Valued Trust (CVT). Certificated, Administrative, and Unrepresented Classified employees may retire with District-paid health benefits after the later of age 55 and completion of at least 10 years of District service, until age 65. Medical, dental and vision coverage, including spousal and dependent coverage, is payable up to the premium in effect in the year of the employee's retirement, subject to the District cap on benefits. Classified employees covered by the CTA-ESP bargaining agreement are eligible for the same benefits as described above for other groups. All CTA-ESP employees are eligible for District-paid retiree health benefits, regardless of hire date.

Employees Covered by Benefit Terms - At June 30, 2020 (the valuation date), the benefit terms covered the following employees:

Active employees	105
Inactive employees	11
Total employees	116

Contributions - The District makes contributions based on an actuarially determined rate and are approved by the authority of the District's Board. Total contributions to the OPEB plan during the year were \$156,687. Total benefit payments included in the measurement period were \$156,687. The actuarially determined contribution for the measurement period was \$102,246. The District's contributions were 1.26% of covered employee payroll during the measurement period June 30, 2021 (reporting period June 30, 2021). Employees are not required to contribute to the plan. There have been no assets accumulated in a trust to provide for the benefits of this plan as of measurement date June 30, 2021.

Actuarial Assumptions - The following summarized the actuarial assumptions for the OPEB plan included in this fiscal year:

NOTE 14 - COVID-19 PANDEMIC IMPACT

In December 2019, a novel strain of coronavirus surfaced (COVID-19) and spread around the world, with resulting business and social disruption. The operations and business results of the District could be materially and adversely affected in the future, including a reduction in the level of funding and potential impacts from the timing of cash flows. In addition, significant estimates may be materially and adversely impacted by national, state and local events designed to contain the coronavirus. Debt ratings for outstanding issuances may further be impacted. For the 2021-2022 school year, the District is offering instruction in formats consistent with local health guidelines. Throughout the pandemic the District has put into practice a number of safety measures to protect students and employees and will continue to revise them as needed. At the date of the issuance of these financial statements, the future impact of the CV19 Crisis cannot be reasonably estimated.

CORNING UNION HIGH SCHOOL DISTRICT NOTES TO STATE AND FEDERAL AWARD COMPLIANCE SECTIONS FOR THE YEAR ENDED JUNE 30, 2021

1. PURPOSE OF SCHEDULES

A. Schedule of Instructional Time

The District has received incentive funding for increasing instructional time as provided by the Incentives for Longer Instructional Day and Longer Instructional Year. This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the provisions of Education Code Sections 46201 through 46206 and whether the Charter School complied with Education Code Sections 47612 and 47612.5.

B. Schedule of Charter Schools

This schedule is provided to list all charter schools chartered by the District and displays information for each charter school on whether or not the charter school is included in the District's financial statements.

C. Schedule of Financial Trends and Analysis

This schedule discloses the District's financial trends by displaying past years' data along with current year budget information. These financial trend disclosures are used to evaluate the District's ability to continue as a going concern for a reasonable period of time.

D. Schedule of Expenditures of Federal Awards

Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Regulations, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) requires a disclosure of the financial activities of all federally funded programs. This schedule was prepared to comply with Uniform Guidance requirements.

E. <u>Reconciliation of Annual Financial and Budget Report with Audited Financial Statements</u>

This schedule provides the information necessary to reconcile the fund balances of all funds as reported in the Unaudited Actual Financial Report in SACS to the audited financial statements.

2. RESULTS OF RECONCILIATIONS OF EXPENDITURES PER SCHEDULE OF GRANT ACTIVITY WITH THE DISTRICT'S ACCOUNTING SYSTEMS

There were no material unreconciled differences between the District's records and the schedule of federal grant activity as shown on the Schedule of Expenditures of Federal Awards.

CORNING UNION HIGH SCHOOL DISTRICT NOTES TO STATE AND FEDERAL AWARD COMPLIANCE SECTIONS FOR THE YEAR ENDED JUNE 30, 2021

3. BASIS OF PRESENTATION – SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Regulations, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

Expenditures reported on the schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowed or are limited as to reimbursement. Negative amounts shown on the schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. The District has elected not to use the 10 percent de minimus indirect cost rate as allowed under Uniform Guidance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Trustees Corning Union High School District Corning, California

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Corning Union High School District (the District) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated March 15, 2022.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and

material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH UNIFORM GUIDANCE

Board of Education Corning Union High School District Corning, California

Report on Compliance for Each Major Federal Program

We have audited Corning Union High School District's (the District) compliance with the types of compliance requirements described in *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2021. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

Report on Internal Control over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of

requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON STATE PROGRAMS

The Honorable Board of Trustees Corning Union High School District Corning, California

Compliance

We have audited the Corning Union High School District's (the District) compliance with the types of compliance requirements described in the 2020-21 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting, published by the Education Audit Appeals Panel, that could have a direct and material effect on each of the District's state programs identified below for the year ended June 30, 2021.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each applicable program as identified in the State's audit guide, 2020-21 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting, published by the Education Audit Appeals Panel. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the 2020-21 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting, published by the Education Audit Appeals Panel. Those standards, and state audit, guide require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the state laws and regulations described in the schedule below, occurred. An audit includes examining, on a test basis, evidence supporting the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the District's compliance with those requirements.

In connection with the compliance audit referred to above, we selected and tested transactions and records to determine the District's compliance with the state laws and regulations applicable to the following items:
