5. REPORTS:

**5.1 SUPERINTENDENT
REPORT:**

Superintendent, Jared Caylor shared the following:

1. Gavin Newsom announced that as of June 15th all counties will be able to re-open (tiered systems will be gone). Next fall, all schools will be able to be opened 5 days per week.
2. The district hopes to have more clarification in June at budget adoption.
3. There will likely still be mask requirements and public health measures to follow.
4. There will be full time/in person instruction with Cal/OSHA requirements and guidelines.
5. Off campus instruction will be made available however it will have prerequisites in hopes to have more students in person.

There was discussion about the current Distance Learning totals which is at about 27% right now. Board Member, Larry Glover asked if Cal/OSHA could just show up and do a walk thru. Superintendent, Jared Caylor shared that this is a possibility and that the district had to work with them this school year. They had received communication and followed up with the district to ensure that COVID related procedures were being handled correctly. Board Member, Scott Patton suggested that the district reaches out to that person in an attempt to build a positive relationship with them ahead of time.

The New Bell System- If the projects is anticipated to be under \$200,000 it goes through an informal bid process. This project is expected to be approximately 130K range. Director of Technology, Dave Messmer is working on writing up the specifications. There is a CUPCCAA List which is kept and then all of the vendors will be notified and can reply.

There is a resolution for approval later in the meeting. The district has invested heavily over the past 8 years in tech and network infrastructure.

Speech Therapy Services- There will be contracts and MOU's for approval over the next few months. Having a speech therapist is required by law and the need has grown over the years. The options are to contract with SELPA and Private Companies. The lists are growing and it is becoming hard to find them. There are many factors why. The Industry and licensing requirements are some factors and the prices are now high and the services are affected. The district is moving away from Full Circle out of Chico and is working with Red Bluff High School to contract services for a few days per week. If this does not work out, the district will have to hire privately and this will likely cost more. The therapist will likely be out of the area, however the positive take is that the services will probably be of better quality than are currently being offered.

Graduation- June 3rd is Centennial High School's Graduation and June 4th is CUHS High School's Graduation.

Current State Guidelines- 25% Capacity
June 15th- Tier system goes away.

There is the question of whether the Board should consider postponement until the 15th of June. There are 197 potential graduates at main campus. Some discussion included:

1. Accommodating families and student's needs.
2. Placing students in the bleachers and families in the stadium.
3. Use of a voucher system which is working well for athletics.
4. Following Public Health Guidelines.
5. Sober Grad which will be held at New Life Assembly.

Superintendent, Jared Caylor shared that the Admin team will work on the capacity and share the information with the Board for feedback.

The enrollment report is available for viewing online however, was not discussed as part of the report this month.

**6. PUBLIC COMMENT
ON CLOSED SESSION:**

There was none.

**7. ADJOURN TO
CLOSED SESSION:**

The Board adjourned to closed session at 6:11p.m.

**8. REOPEN TO PUBLIC

There was a minor discussion regarding the Café fund. There are less students eating due to the Distance Learning students that are not on campus. There is less being spent on food however, Administration is trying to brainstorm ideas to have the students that are on campus eat. Some students go through the snack bar line but do not eat regular lunch. These students are being flagged and encouraged to eat the free meal that is offered. The district receives \$3.50 extra per meal plus possibly an additional .75. Board Member, Jim Bingham suggested to send a letter to parents communicating that the Café serves meals to every student for free right now in hopes that they would encourage their student to eat.

11.2 CERTIFICATION OF THE DISTRICTS FIANANCIAL CONDITION:

A motion was made by Todd Henderson and seconded by Jim Bingham to approve the certification of the CUHSD financial status with a positive certification. There being no further discussion, the Board voted unanimously to approve and certify the financial status of the district.

The vote is as follows:

11.3 CUHSD 2020 SOLAR PLANT ANNUAL REPORT:

The period of this report is January 1, 2020- December 31, 2020.

Safety and Environment

There were no safety/accident issues or reports of any environmental disturbances during the twelve-month period ending on December 31,

Additional Services

In addition to continuously monitoring the systems via the PowerTrack web interface, IEC has performed the following services at the systems:

Annual equipment inspection/maintenance
Equipment warranty repair/replacement

Inspections & Engineering Investigations

IEC performed a set of inspections at all the solar sites to ensure installations are fully functional and properly serviced. The Annual Inspection was performed on August 27, 2020. Results of the inspections have been provided in the Annual Inspection Report.

Action Required by Operator and Owner

Below is summary of action items for the Owner (District)

1. Replace the one (1) broken PV module listed above. Notify IEC that the District wishes to replace the broken modules and IEC will prepare a Work Order Request.

Below is a summary of action items for the Operator (IEC)

All items have been addressed, resolved and closed out, with exception of the items listed below.

1. None.

Next Steps

- The next “Annual Inspection” is tentatively scheduled for August 2021
- The next “Annual Report” is due March 1, 2022

11.4 RESOLUTION NO. 433:

A motion was made by Todd Henderson and seconded by Jim Bingham to approve Resolution No. 433. This is regarding lease leaseback Construction delivery methods and adopting guidelines and Procedures. This Resolution is effective upon the date of adoption.

- Recommended by Project Manager
- Specifically for foundations and site work on new classrooms
- Will allow us to specify our own priorities, other than cost, in selecting a contractor
- Due to delays in delivery of buildings, the timeline for these classrooms is much tighter than previous phases
 - School will begin with numerous teachers in temporary spaces
 - If all goes well, all classrooms will be completed and occupied by Oct 1
 - This requires the site contractor to complete their finish work in a tight window

There being no further discussion, the Board voted unanimously to approve Resolution No. 433.

The vote is as follows:

Larry Glover	Aye: <u> X </u>	No: <u> </u>	Absent: <u> </u>	Abstain: <u> </u>
William Mache	Aye: <u> X </u>	No: <u> </u>	Absent: <u> </u>	Abstain: <u> </u>

Scott Patton	Aye: <u> </u>	No: <u> </u>	Absent: <u> X </u>	Abstain: <u> </u>
Jim Bingham	Aye: <u> X </u>	No: <u> </u>	Absent: <u> </u>	Abstain: <u> </u>

11.5 FUTURE AGENDA ITEMS:

Superintendent, Jared Caylor discussed the upcoming Board Retreat dates.

- Dates are currently next week, Friday 3/26 & Sat 3/27
 Friday 3/26 conflicts w/ first home football game
 Other potential dates: 4/23 (Conflicts w/ Orland FB Game) or 4/30 (No FB, Home Baseball)
 Likely that most admin won't be able to come on 3/26

Board President, Bill Mache suggested to the Board to hold the meeting on Saturday, March 27th only to avoid the Friday conflicts with football. The Board agreed that this was a good suggestion. Board Clerk, Jim Bingham will confirm and get back in touch with Superintendent, Jared Caylor soon to finalize the date.

- Agenda Items to be discussed:
 - Budget Update - One Time Funds/Large Expenses
 - CUHSD Governance Handbook
 - Strategic Planning/LCAP/District Priorities
 - Superintendent Evaluation (Saturday)

12. ADJOURNMENT:

The meeting adjourned at 6:58 p.m.

Approved

William Mache, President

James Bingham, Clerk

RESOLUTION No. 434
BEFORE THE BOARD OF TRUSTEES OF THE
CORNING UNION HIGH SCHOOL DISTRICT

RESOLUTION REGARDING DESIGNATION OF A SPECIFIC BRAND OR TRADE NAME IN
INVITATIONS TO BID AND REQUESTS FOR PROPOSAL PURSUANT TO PUBLIC
CONTRACT CODE SECTION 3400

WHEREAS, the Corning Union High School District (“District”) intends to provide for the installation of new intercom, clock, and bell schedule equipment at Corning Union High School and Centennial High School (“New Equipment”); and

WHEREAS, the District previously installed similar equipment from a manufacturer of intercom, clock, bell schedule, and related equipment, Valcom, Inc., for its Corning Union High School and Centennial High School site (“Existing Equipment”); and

WHEREAS, Public Contract Code section 3400(c) provides that the District may make a finding that is described in invitations for bids or requests for proposals for a construction project that a particular material, product, thing or service is designated by specific brand or trade name if doing so meets one or more particular purposes; and

WHEREAS, the purposes identified in Public Contract Code section 3400(c) include the purpose of matching other products in use on a particular District public improvement either completed or in the course of completion; and

WHEREAS, it is in the best interest of the District to have a uniform intercom, clock, and bell schedule system for all of its school sites to provide for the centralization of the system in the District’s main office and allow for District-wide communications, including in emergencies; and

WHEREAS, maximizing uniformity among certain products, materials things and services and related use of a particular brand or trade name results in greater efficiency and cost savings to the District because the District is able to (1) match and/or integrate with products already in use, reducing the need for replacement of existing products; (2) stock a single model of replacement products or parts; (3) minimize inventory storage of parts; (4) make more cost effective purchases due to larger quantities; (5) standardize and reduce the cost of installation and use; (6) standardize maintenance, repair and cleaning; (7) reduce and make more uniform training for District staff on installation and use; (8) stockpile units for rapid replacement; (9) utilize standardized connections, such as cabling requirements for system peripheral devices; and (10) determine interior finishes at the outset of project design, minimizing architectural design and redesign costs; and

WHEREAS, Valcom is the sole manufacturer of such New Equipment that may be configured to work with the Existing Equipment and no other equipment is available that is likely to meet the District’s needs in this respect; and

NOW THEREFORE BE IT RESOLVED that the Board of Trustees of the Corning Union High School District hereby finds, determines, and orders as follows:

1. The foregoing recitals are adopted as true and correct.

2. The specification of intercom, clock, and bell schedule system equipment and related goods from Valcom in invitations to bid or requests for proposals is consistent with the purpose set forth in Public Contract Code section 3400(c)(2) and will help the District achieve the above-stated benefits of product uniformity.

3. Each invitation to bid or request for proposal that identifies particular materials, products, things or services by specific trade or brand name pursuant to the authority of this Resolution shall describe the findings set forth herein applicable to such particular materials, products, things or services.

4. The District's Superintendent or designee is authorized and directed to take such further actions as may be necessary or convenient to carry out said purchase.

5. This Resolution shall take effect immediately upon its adoption.

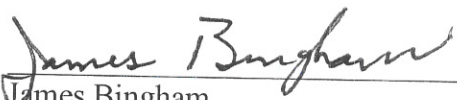

This Resolution was adopted at a duly called meeting of the Corning Union High School District held on April 15, 2021.

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Corning Union High School District (the District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

The District's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2020, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of pension plan contributions, schedule of proportionate share of net pension liabilities, schedule of OPEB contributions, and schedule of changes in net OPEB liability, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual nonmajor fund financial statements, as required by the Governmental Accounting Standards Board; organization schedule, schedule of average daily attendance, schedule of instructional time, schedule of charter schools, schedule of financial trends and analysis, and reconciliation of the Annual Financial and Budget Report to the audited financial statement, as required by the *2019-20 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*; and schedule of expenditures of federal awards, as required by *Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, schedule of expenditures of federal awards, schedule of average daily attendance, schedule of instructional time, and reconciliation of the Annual Financial and Budget Report to the audited financial statements are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, schedule of expenditures of federal awards, schedule of average daily attendance, schedule of instructional time, and the reconciliation of the Annual Financial and Budget Report to the audited financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The organization schedule, schedule of charter schools and schedule of financial trends and analysis included have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 25, 2021 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Management's Discussion and Analysis

Corning Union High School District
Management's Discussion and Analysis
June 30, 2020

This discussion and analysis of Corning Union High School District's (the District's) financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2020. The intent of this discussion and analysis is to look at the District's financial performance as a whole. Readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for the fiscal year 2020 are as follows:

- Total net position increased by \$387,746 (7%) from June 30, 2019 to June 30, 2020, mainly due to an increase in federal and state grants and LCFF sources.
- The District recorded deferred outflows of resources of \$4,138,948 and deferred inflows of resources of \$1,841,112 as required by GASB 68 and GASB 75 for pension and other postemployment benefit accounting and reporting. Deferred outflows of resources are technically not assets but increase the Statement of Net Position similar to an asset and deferred inflows of resources are technically not liabilities but decrease the Statement of Net Position similar to liabilities. See Note 1 in the notes to financial statements for a definition.
- The District had \$17,126,855 in government-wide expenses which is 98% of total government-wide revenues. Program specific revenues in the form of operating grants and contributions and charges for services accounted for \$3,937,350 (23%) of the total revenues of \$17,514,601.
- General revenue of \$13,577,251, which includes property taxes, unrestricted federal and state grants and LCFF sources, was 78% of total revenues in both 2020 and 2019.
- The fund balances in all funds decreased by \$1,244,902, which is a 12% decrease from 2019, mostly due increased capital outlay expenditures in the Building Fund.
- Total governmental fund revenues and expenditures totaled \$17,514,602 and \$18,759,504, respectively.

Using the Annual Report

This annual report consists of a series of basic financial statements and notes to those statements. These statements are organized so the reader can understand Corning Union High School District as a financial whole, an entire operating entity. The statements provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities comprise the government-wide financial statements and provide information about the activities of the entire District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other non-major funds presented in total in one column. In the case of Corning Union High School District, the General Fund is by far the most significant fund.

Corning Union High School District
Management's Discussion and Analysis
June 30, 2020

The basic financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

Overview of the Financial Statements

The full annual financial report is a product of three separate parts: the basic financial statements, supplementary information, and this section, the Management Discussion and Analysis. These three sections together provide a comprehensive financial overview of the District. The basic financials are comprised of two kinds of statements that present financial information from different perspectives, Government-wide and funds.

- Government-wide financial statements, which comprise the first two statements, provide both short-term and long-term information about the District's overall financial position.
- Individual parts of the District, which are reported as fund financial statements, focus on reporting the District's operations in more detail. These fund financial statements comprise the remaining statements.
- Notes to the financials, which are included in the financial statements, provide more detailed data and explain some of the information in the statements. The required supplementary information section provides further explanations and provides additional support for the financial statements.

Government-wide Financial Statements - Statement of Net Position and the Statement of Activities

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during the fiscal year 2020?" The Statement of Net Position and the Statement of Activities answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting practices used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses, regardless of when cash is received or paid.

These two statements report the District's net position and changes in those assets. This change in net position is important because it tells the reader that, for the District as a whole, the financial position of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, and some not. Non-financial factors include the District's property tax base, current property tax laws in California restricting revenue growth, facility conditions, and required educational programs.

In the Statement of Net Position and the Statement of Activities, the District reports governmental activities. Governmental activities are the activities where most of the District's programs and services are reported including, but not limited to, instruction, support services, operation and maintenance of plant, pupil transportation and extracurricular activities.

Reporting the District's Most Significant Funds

Fund Financial Statements

The analysis of the District's major funds begins with the Balance Sheet. Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. These fund financial statements focus on each of the District's most significant funds. The District's major governmental funds are the General Fund, the Building Fund and the Foundation Special Revenue Fund.

Governmental Funds

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary Funds

Services for which the District charges a fee are generally reported in proprietary funds on a full accrual basis. The District did not have any proprietary funds.

Fiduciary Funds

The District is the trustee, or fiduciary, for its scholarship and student activity funds. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Position. We exclude these activities from the District's other financial statements because the District cannot use these assets to finance its operations. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

The District as a Whole

Recall that the Statement of Net Position provides a perspective of the District as a whole. Table 1 provides a summary of the District's net position as of June 30, 2020 compared to June 30, 2019:

Current and other assets decreased by 12% mostly because of cash from unspent bond proceeds used for capital projects during the year. Accordingly, capital assets increased by 14% from capital outlay related to bond spending or expenditures incurred on facility improvement programs. Current liabilities decreased by 14% mostly from liabilities being paid in the Building Fund related to facilities improvements.

General Fund Budgetary Highlights

The District's budget is prepared in accordance with California law and is based on the modified accrual basis of accounting. Over the course of the year, the District revised its budget based on updated financial information. The original budget, approved at the end of June for July 1, is based on May Revise figures and updated 45 days after the State approves its final budget. In addition, the District revised its budget at First and Second Interim. The original budget presented in the required supplementary information section includes only new revenues for 2020. During the budget revision process the District accounts for prior year ending balances by budgeting to use the carryover. Budgeted revenue increased by \$918,851 from adopted to final and budgeted expenditures increased by \$545,469 from adopted to final during the year.

Factors Bearing on the District's Future

At the time these financial statements were prepared and audited, the District was aware of the following circumstances that could significantly affect its financial health in the future:

- District enrollment is no longer declining.
- Special education costs continue to increase.
- There may be unpredictable increases in fuel and electric costs.
- Increase in legal costs due to personnel, negotiations, and special education matters.
- Continued increases to CalSTRS and CalPERS retirement costs.
- Annual minimum wage increases.

Total net change in fund balances - governmental funds	\$ (1,244,902)
--	----------------

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives as depreciation expense.

Capital assets additions	2,912,324	
Depreciation expense	(768,871)	2,143,453

The governmental funds report debt proceeds as an other financing source, while repayment of debt principal is reported as an expenditure. Interest is recognized as an expenditure in the governmental funds when it is due. The net effect of these differences in the treatment of long-term debt and related items is as follows:

Payment on line of credit	98,795	
Repayment of note payable	124,649	
Payment on capital leases	91,313	
Repayment of bond principal	185,000	499,757

In governmental funds, actual contributions to pension plans are reported as expenditures in the year incurred. However, in the government-wide statement of activities, only the current year pension expense as noted in the plans' valuation reports is reported as an expense, as adjusted for deferred inflows and outflows of resources. (945,375)

In governmental funds, if debt is issued at a premium or at a discount, the premium or discount is recognized as an other financing source or other financing use in the period it is incurred. In the government-wide statements, the premium or discount is amortized as interest over the life of the debt. The difference between premiums or discounts recognized in the current period and amortized over future periods is: 9,010

In the statement of activities, compensated absences are measured by the amount earned during the year. In governmental funds, however, expenditures for those items are measured by the amount of financial resources used (essentially the amounts paid). This year vacation earned exceeded the amounts used by: (8,799)

In governmental funds, actual contributions to OPEB plans are reported as expenditures in the year incurred. However, in the government-wide statement of activities, only the current year OPEB expense as noted in the plan's valuation reports is reported as an expense, as adjusted for deferred inflows and outflows of resources. (56,442)

Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. (8,956)

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

A. Accounting Principles

The Corning Union High School District (the “District”) accounts for its financial transactions in accordance with the policies and procedures of the Department of Education’s *California School Accounting Manual*. The accounting policies of the district conform to generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB) and the American Institute of Certified Public Accountants (AICPA).

B. Reporting Entity

The District is the level of government primarily accountable for activities related to public education. The governing authority consists of five elected officials who, together, constitute the Board of Trustees. The District’s combined financial statements include the accounts of all its operations. The District evaluated whether any other entity should be included in these financial statements using the criteria established by GASB. The basic, but not the only, criterion for including a governmental department, agency, institution, commission, public authority, or other governmental organization in a governmental unit’s reporting entity for general purpose financial reports is the ability of the governmental unit’s elected officials to exercise oversight responsibility over such agencies. Oversight responsibility implies that one governmental unit is dependent on another and that the dependent unit should be reported as part of the other. Oversight responsibility is derived from the governmental unit’s power and includes, but is not limited to:

- Financial interdependency
- Selection of governing authority
- Designation of management
- Ability to significantly influence operations
- Accountability for fiscal matters

Accordingly, for the year ended June 30, 2020, the District is financially accountable for the Corning Union High School Master Endowment Trust (the Trust) and has included the Trust’s financial information in the Foundation Special Revenue Fund as a blended component unit. The Trust is a tax-exempt corporation under Internal Revenue Code, Section 501(c)(3) and was formed to manage the bequest of Rodgers Ranch to the District. The purpose of the Trust is to maintain Rodgers Ranch, promote agriculture education at the District, and to provide scholarships to District students. The scholarship portion of the Trust is reported as a private-purpose trust fund, and the remaining portion of the Trust is reported as the Foundation Special Revenue Fund in the District’s financial statements. Individually prepared financial statements are not available for the Trust. The District does not have any other component units and is not a component unit of any other reporting entity.

C. Basis of Presentation

Government-wide Financial Statements:

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the District. The Statement of Net Position reports all assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position.

**CORNING UNION HIGH SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund and fiduciary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements, therefore, include the reconciliation with brief explanations to better identify the relationship between the government wide statements and the statements for the governmental funds.

The government-wide Statement of Activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are therefore clearly identifiable to a particular function. The District does not allocate indirect expenses to functions in the statement of activities. Program revenues include charges paid by the recipients of goods or services offered by a program, as well as grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues of the District, with certain exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements:

Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major governmental fund is presented in a separate column, and all nonmajor funds are aggregated into one column. Fiduciary funds are reported by fund type.

The accounting and financial treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets, deferred outflows of resources, current liabilities and deferred inflows of resources are generally included on the balance sheet. The Statement of Revenues, Expenditures, and Changes in Fund Balances for these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

Fiduciary funds are reported using the economic resources measurement focus except for agency funds, which have no measurement focus.

D. Basis of Accounting

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds use the accrual basis of accounting.

Revenues – Exchange and Non-exchange Transactions:

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded under the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Available" means the resources will be collected within the current fiscal year or are

**CORNING UNION HIGH SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. To achieve comparability of reporting among California districts, and so as not to distort normal revenue patterns with specific respect to reimbursement grants and correction to state-aid apportionments, the California Department of Education has defined available for district as collectible within one year.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, and entitlements. Under the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and entitlements is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are to be used or the fiscal year when use is first permitted; matching requirements, in which the District must provide local resources to be used for a specific purpose; and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. Under the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Deferred Outflows/Deferred Inflows:

In addition to assets, the Statement of Net Position includes a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s), and as such will not be recognized as an outflow of resources (expense/expenditures) until then. The District has recognized a deferred outflow of resources related to the recognition of the net pension liability and net OPEB liability reported in the Statement of Net Position.

In addition to liabilities, the Statement of Net Position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and as such, will not be recognized as an inflow of resources (revenue) until that time. The District has recognized a deferred inflow of resources related to the recognition of the District's benefit plans liability reported which is in the Statement of Net Position.

Unearned Revenue:

Unearned revenue arises when assets, such as cash, are received before revenue recognition criteria have been satisfied. Grants and entitlements received before eligibility requirements, such as qualified expenditures, are met are recorded as liabilities from unearned revenue.

Unavailable Revenue:

In the governmental fund financial statements, receivables associated with non-exchange transactions that will not be collected within the availability period have been recorded as deferred inflows of resources as unavailable revenue.

Expenses/Expenditures:

On the accrual basis of accounting, expenses are recognized at the time a liability is incurred. On the modified accrual basis of accounting, expenditures are generally recognized in the accounting period in which the related fund liability is incurred, as under the accrual basis of accounting. However,

**CORNING UNION HIGH SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

under the modified accrual basis of accounting, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

E. Fund Accounting

The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows, liabilities, deferred inflows, fund equity or retained earnings, revenues, and expenditures or expenses, as appropriate. District resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The District's accounts are organized into major, nonmajor, and fiduciary funds as follows:

Major Governmental Funds:

The *General Fund* is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

The *Building Fund* is used to account for proceeds from the sale of real property and account for the acquisition of major governmental capital facilities and buildings from the sale of bond proceeds.

The *Foundation Special Revenue Fund* is used to account for resources received from gifts or bequests pursuant to California Education Code, Section 41031, under which both earnings and principal may be used for purposes that support the District's own programs.

Non-major Governmental Funds:

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are restricted or committed for purposes other than debt service or capital projects. The restricted or committed resources need to comprise a substantial portion of the inflows reported in the special revenue fund. The District maintains the following non-major special revenue funds:

- The *Adult Education Fund* is used to account for resources committed to adult education programs maintained by the District.
- The *Cafeteria Fund* is used to account for revenues received and expenditures made to operate the District's food service programs.
- The *Deferred Maintenance Fund* is used for the purpose of major repair or replacement of District property.

Capital Projects Funds are used to account for resources restricted, committed or assigned for capital outlays. The District maintains the following non-major capital projects funds:

- The *Capital Facilities Fund* is used to account for resources received from developer impact fees assessed under provisions of the California Environmental Quality Act (CEQA).

**CORNING UNION HIGH SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

- The *County School Facilities Fund* was established to receive apportionments from the State Schools Facilities Fund authorized by the State Allocation Board for new school facility construction, modernization projects and facility hardship grants.
- The *Special Reserve Fund for Capital Projects* exists primarily to account for resources accumulated for capital outlay.

Debt Service Funds are established to account for the accumulation of resources for the payment of the principal and interest on long-term debt.

- The *Bond Interest and Redemption Fund* is maintained by the County Treasurer and is used to account for both the accumulation of resources from ad valorem tax levies and the interest and redemption of principal of the funding of general obligation bonds issued by the District.

Fiduciary Funds:

Fiduciary Fund reporting focuses on net position and changes in net position. Fiduciary funds are used to report assets held in a trustee or agency capacity for others and therefore cannot be used to support the District's own programs. The fiduciary fund category includes pension (and other employee benefit) trust funds, investment trust funds, private-purpose trust funds, and agency funds.

The District maintains the following fiduciary funds:

- *Agency Funds* are used to account for assets of others for which the District acts as an agent. The District maintains an agency fund for the student body accounts. The student body funds are used to account for the raising and expending of money to promote the general welfare, morale, and educational experience of the student body. The amounts reported for student body funds represent the combined totals of all schools within the District.
- *Private-Purpose Trust Funds* are used to account for assets held by the District as trustee pursuant to formal agreements with donors and under which neither principal nor income may be used for purposes that support the District's own programs. The Foundation Private-Purpose Trust Fund is used to account separately for gifts or bequests that provide scholarships to students of the District.

F. Budgets and Budgetary Accounting

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. By state law, the District's governing board must adopt a final budget no later than July 1. A public hearing must be conducted to receive comments prior to adoption. The District's governing board satisfied these requirements.

These budgets are revised by the District's governing board and District Superintendent during the year to give consideration to unanticipated income and expenditures. The original and final revised budgets for the General Fund and major special revenue funds are presented as Required Supplementary Information.

**CORNING UNION HIGH SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

Formal budgetary integration was employed as a management control device during the year for all budgeted funds. The District employs budget control by minor object and by individual appropriation accounts. Expenditures cannot legally exceed appropriations by major object account.

G. Encumbrances

Encumbrance accounting is used in all budgeted funds to reserve portions of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts, and other commitments when they are written. Encumbrances are liquidated when the commitments are paid. All encumbrances are liquidated on June 30.

H. Benefit Plans

Pensions:

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the District's California Public Employees' Retirement System (CalPERS) and California State Teachers' Retirement System (CalSTRS) plans and additions to/deductions from the plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS and CalSTRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

GASB Statement No. 68, *Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27* requires that the reported results must pertain to liability and asset information within certain defined time frames. For this period, the following time frames were used:

Valuation Date	June 30, 2018
Measurement Date	June 30, 2019
Measurement Period	July 1, 2018 to June 30, 2019

Other Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the total OPEB liability, deferred outflows of resources and deferred inflows of resources, and OPEB expense, information about the District's Retiree Benefits Plan (the OPEB Plan) and additions to/deductions are based on when they are due and payable in accordance with the benefit terms for the measurement period included in the OPEB plan's actuarial reports.

Valuation Date	June 30, 2020
Measurement Date	June 30, 2020
Measurement Period	July 1, 2019 to June 30, 2020

I. Assets, Liabilities, and Equity

1. Cash and Investments

Cash balances held in banks and in revolving funds are insured to \$250,000 by the Federal Deposit Insurance Corporation.

**CORNING UNION HIGH SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

In accordance with *Education Code* Section 41001, the District maintains substantially all of its cash in the County Treasury. The county pools these funds with those of other districts in the county and invests the cash. These pooled funds are carried at cost, which approximates market value. Interest earned is deposited quarterly into participating funds. Any investment losses are proportionately shared by all funds in the pool.

All district-directed investments are governed by Government Code Section 53601 and Treasury investment guidelines. The guidelines limit specific investments to government securities, domestic chartered financial securities, domestic corporate issues, and California municipal securities. The District's securities portfolio is held by the County Treasurer. Interest earned on investments is recorded as revenue of the fund from which the investment was made.

The county is authorized to deposit cash and invest excess funds by California Government Code Section 53648. The funds maintained by the county are either secured by federal depository insurance or are collateralized.

2. Fair Value Measurements

Investments are recorded at fair value in accordance with GASB Statement No. 72, *Fair Value Measurement and Application*. Accordingly, the change in fair value of investments is recognized as an increase or decrease to investment assets and investment income. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction.

In determining this amount, three valuation techniques are available:

- Market approach - This approach uses prices generated for identical or similar assets or liabilities. The most common example is an investment in a public security traded in an active exchange such as the NYSE.
- Cost approach - This technique determines the amount required to replace the current asset. This approach may be ideal for valuing donations of capital assets or historical treasures.
- Income approach - This approach converts future amounts (such as cash flows) into a current discounted amount.

Each of these valuation techniques requires inputs to calculate a fair value. Observable inputs have been maximized in fair value measures, and unobservable inputs have been minimized.

3. Stores Inventories and Prepaid Expenditures

Inventories

Inventories consist of supplies and materials. Expenses are recorded as the supplies and materials are consumed. Inventories are valued on the average cost method for purchased supplies and materials. Donated commodities inventory is valued at its fair value at the time of donation. Reported inventories are equally offset by a fund balance reserve, which indicates that these amounts are not "available for appropriation and expenditure" even though they are a component of net current assets.

**CORNING UNION HIGH SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

Prepaids

The District has the option of reporting expenditure in governmental funds for prepaid items either when purchased or during the benefiting period. The District has chosen to report the expenditure during the benefiting period.

4. Capital Assets

Capital assets, which include sites, improvement of sites, buildings and improvements, equipment, and construction in progress, are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of \$25,000 or more and an estimated useful life in excess of one year, except for buildings and improvements for which a higher capitalization threshold of \$50,000 or more is used. All fixed assets are valued at historical cost, or estimated historical cost if actual is unavailable, except for donated fixed assets, which are recorded at their estimated fair value at the date of donation.

Projects under construction are recorded at cost as construction in progress and transferred to the appropriate asset account when substantially complete. Costs of major improvements and rehabilitation of buildings are capitalized. Repair and maintenance costs are charged to expense when incurred. Equipment disposed of, or no longer required for its existing use, is removed from the records at actual or estimated historical cost, net of accumulated depreciation.

Depreciation of all exhaustible fixed assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation reflected in the statement of net position. All capital assets, except land and construction in progress, are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
School buildings	10-50
Portable buildings	25
Site improvements	20
Vehicles	8-20
Equipment	5-20

5. Compensated Absences

The liability for earned but unused vacation leave is recorded as long-term debt for compensated absences in the government-wide statements. The current portion of this debt is estimated based on historical trends. In the fund financial statements, governmental funds report only the compensated absence liability payable from expendable available financial resources.

6. Long-Term Liabilities

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the Statement of Net Position. Bond premiums and discounts as well as issuance costs if related to prepaid insurance costs, are deferred and amortized over the life of the bonds. Bonds payable are reported net of applicable bond premium or discount. Issuance costs, not related to prepaid insurance costs, are expensed in the period incurred.

**CORNING UNION HIGH SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

In the fund financial statements, governmental funds recognize bond premiums and discounts as well as bond issuance costs, during the current period. The face amount of the debt issued, premiums, or discounts are reported as other financing sources or uses.

7. Fund Balance Classifications

The District is committed to maintaining a prudent level of financial resources to protect against the need to reduce service levels because of temporary revenue shortfalls or unpredicted expenditures. The District's minimum fund balance policy requires a reserve for economic uncertainties, consisting of unassigned amounts, equal to no less than three percent of general fund operating expenditures and other financing uses.

In accordance with Government Accounting Standards Board 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the District classifies governmental fund balances as follows:

- *Non-spendable* fund balance includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual constraints.
- *Restricted* fund balance includes amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation.
- *Committed* fund balance includes amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision-making authority and does not lapse at year-end. Committed fund balances are imposed by the District's board of education.
- *Assigned* fund balance includes amounts that are intended to be used for specific purposes that are neither considered restricted or committed. Fund balance may be assigned by the District's Board of Trustees or a designee of the District's Board of Trustees.
- *Unassigned* fund balance includes positive amounts within the general fund which has not been classified within the above-mentioned categories and negative fund balances in other governmental funds.

The District uses restricted/committed amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as a grant agreement requiring dollar for dollar spending. Additionally, the District would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

8. Net Position

Net position represents the difference between assets, deferred outflows, liabilities and deferred inflows. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. In addition, deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement

**CORNING UNION HIGH SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

of those assets or related debt also are included in the net investment in capital assets component of net position. As of June 30, 2020, capital assets net of accumulated depreciation totaling \$17,492,488 was increased by unspent bond proceeds of \$41,826 and reduced by related debt of \$7,632,609, which excluded premiums attributed to cash reserves for debt service of \$253,073.

Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, laws or regulations of other governments. The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Capital Projects restrictions will be used for the acquisition and construction of capital facilities.

Charter School Programs restrictions reflect the cash balances in the charter schools fund that are restricted to the charter school programs.

Cafeteria program restrictions reflect the amounts to be expended for federal and state funded school lunch and breakfast programs.

Educational Programs restrictions reflect the amounts to be expended for federal and state funded educational programs.

Unrestricted net position reflects amounts that are not subject to any donor-imposed restrictions. This class also includes restricted gifts whose donor-imposed restrictions were met during the fiscal year. A deficit unrestricted net position may result when significant cash balances restricted for capital projects exist. Once the projects are completed, the restriction on these assets are released and converted to capital assets.

9. Local Control Funding Formula and Property Taxes

The Local Control Funding Formula (LCFF) creates base, supplemental, and concentration grants in place of most previously existing K-12 funding streams, including revenue limits general purpose block grants, and most of the 50-plus state categorical programs. The revenue limit was a combination of local property taxes, state apportionments, and other local sources.

The county is responsible for assessing, collecting, and apportioning property taxes. Taxes are levied for each fiscal year on taxable real and personal property in the county. The levy is based on the assessed values as of the preceding March 1, which is also the lien date. Property taxes on the secured roll are due on August 31 and February 1, and taxes become delinquent after December 10 and April 10, respectively. Property taxes on the unsecured roll are due on the lien date (March 1), and become delinquent if unpaid by August 31.

Secured property taxes are recorded as revenue when apportioned, in the fiscal year of the levy. The county apportions secured property tax revenue in accordance with the alternate method of distribution prescribed by Section 4705 of the *California Revenue and Taxation Code*. This alternate method provides for crediting each applicable fund with its total secured taxes upon completion of the secured tax roll - approximately October 1 of each year. The County Auditor reports the amount of the District's allocated property tax revenue to the California Department of Education. Property taxes are recorded as local revenue limit sources by the District.

**CORNING UNION HIGH SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

10. Risk Management

The District is exposed to various risks, including loss or damage to property, general liability, and injuries to employees. The District participates in risk pools under joint powers agreements for property, liability, workers' compensation, health care, and excess liability coverage. Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three years and there were no significant reductions in insurance coverage from coverage in the prior year.

11. Interfund Transactions

Interfund transactions are reported as either loans, services provided, reimbursements, or transfers. Loans are reported as interfund receivables and payables, as appropriate, and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund, and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers among governmental funds are eliminated as part of the reconciliation to the government-wide financial statements.

12. Eliminations and Reclassifications

In the process of aggregating data for the Statement of Net Position and the Statement of Activities, some amounts reported as interfund activity and balances in the funds were eliminated and reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities within the governmental activities column.

13. Accounting Estimates

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

14. Subsequent Events

Management has reviewed subsequent events and transactions that occurred after the date of the financial statements through the date the financial statements were issued. The financial statements include all events or transactions, including estimates, required to be recognized in accordance with generally accepted accounting principles. In addition to the impact from COVID-19, described in Note 14, management has determined the following subsequent events require additional disclosure:

In July 2020, the District issues \$2,600,000 in 20XX Election, Series X general obligation bonds. The bonds were issued at a premium of \$352,643 and have coupon rates from 4 to 5% through 2049. The bonds were issued to fund future capital projects.

J. Upcoming Accounting and Reporting Changes

GASB Statement No. 84, *Fiduciary Activities*

The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. The requirements of this Statement were initially to be effective for financial statements for periods beginning after December 15, 2018 but have been delayed to periods beginning after December 15, 2019, pursuant to GASB Statement No. 95. Earlier application is encouraged. The District is in the process of determining the impact this Statement will have on the financial statements.

GASB issued Statement No. 87, *Leases*

The objective of this statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this Statement were initially to be effective for financial statements for periods beginning after December 15, 2019 but have been delayed to periods beginning after December 15, 2021, pursuant to GASB Statement No. 95. Earlier application is encouraged. The District is in the process of determining the impact this Statement will have on the financial statements.

GASB Statement No. 89, *Accounting for Interest Cost Incurred Before the End of the Construction Period*

This Statement addresses interest costs incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. The requirements of this Statement were initially to be effective for financial statements for periods beginning after December 15, 2019 but have been delayed to periods beginning after December 15, 2020, pursuant to GASB Statement No. 95. Earlier application is encouraged. The District does not believe this statement will have a significant impact on the District's financial statements.

GASB Statement No. 90, Majority Equity Interests - an Amendment of GASB Statements No. 14 and No. 61

The objectives of this Statement are to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. This Statement also requires that a component unit in which a government has 100 percent equity interest account for its assets, deferred outflows of resources, liabilities, and deferred inflows of resources at acquisition value at the date the government acquired a 100 percent equity interest in the component unit. The requirements of this Statement were initially to be effective for financial statements for periods beginning after December 15, 2018, but have been delayed to periods beginning after December 15, 2019, pursuant to GASB Statement No. 95. The requirements should be applied retroactively, except for the provisions related to (1) reporting a majority equity interest in a component unit and (2) reporting a component unit if the government acquires a 100 percent equity interest. Those provisions should be applied on a prospective basis. The District does not believe this statement will have a significant impact on the District's financial statements.

GASB Statement No. 91, Conduit Debt Obligations

The objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement also clarifies the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitment and voluntary commitments extended by issuers and arrangements associated with the debt obligations; and improving required note disclosures. The requirements of this Statement were initially to be effective for financial statements for periods beginning after December 15, 2020 but have been delayed to periods beginning after December 15, 2021, pursuant to GASB Statement No. 95. Earlier application is encouraged. The District does not believe this statement will have a significant impact on the District's financial statements.

GASB Statement No. 92, Omnibus 2020

The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. This Statement establishes accounting and financial reporting requirements for specific issues related to leases, intra-entity transfers of assets, postemployment benefits, government acquisitions, risk financing and insurance-related activities of public entity risk pools, fair value measurements, and derivative instruments. The requirements of this Statement apply to the financial statements of all state and local governments. The requirements of this Statement were initially to be effective for financial statements for periods beginning after June 15, 2020 but have been delayed to periods beginning after June 15, 2021, pursuant to GASB Statement No. 95. Earlier application is encouraged. The District does not believe this statement will have a significant impact on the District's financial statements.

GASB Statement No. 93, Replacement of Interbank Offered Rates

This Statement establishes accounting and financial reporting requirements related to the replacement of IBORs in hedging derivative instruments and leases. It also identifies appropriate benchmark interest rates for hedging derivative instruments. The requirements of this Statement apply to the financial statements of all state and local governments. The requirements of this Statement apply to the financial statements of all state and local governments. The requirements of this Statement were initially to be effective for financial statements for periods beginning after June 15, 2020 but have been delayed to periods beginning after June 15, 2021, pursuant to GASB Statement No. 95. Earlier application is encouraged. The District does not believe this statement will have a significant impact on the District's financial statements.

GASB Statement No. 94, Public-Private Partnerships and Public-Public Partnerships and Availability Payment Arrangements

The primary objective of this Statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). As used in this Statement, a PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. Some PPPs meet the definition of a service concession arrangement (SCA), which the Board defines in this Statement as a PPP in which (1) the operator collects and is compensated by fees from third parties; (2) the transferor determines or has the ability to modify or approve which services the operator is required to provide, to whom the operator is required to provide the services, and the prices or rates that can be charged for the services; and (3) the transferor is entitled to significant residual interest in the service utility of the underlying PPP asset at the end of the arrangement. This Statement also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). As defined in this Statement, an APA is an arrangement in which a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset for a period of time in an exchange or exchange-like transaction. The requirements of this Statement are to be effective for financial statements for periods beginning after June 15, 2022. Earlier application is encouraged. The District does not believe this statement will have a significant impact on the District's financial statements.

Total Cash and Investments	<u>\$ 557,170</u>	<u>\$ 565,703</u>

Cash in banks and revolving funds

As of June 30, 2020, the bank balances of the District's accounts totaled \$402,186, which was fully insured by FDIC. FDIC covers up to \$250,000 per issuer, per bank.

Fair Value Measurements

GASB 72 established a hierarchy of inputs to the valuation techniques above. This hierarchy has three levels:

- Level 1 inputs are quoted prices in active markets for identical assets or liabilities.
- Level 2 inputs are quoted market prices for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other than quoted prices that are not observable.
- Level 3 inputs are unobservable inputs, such as a property valuation or an appraisal.

The District has the following recurring fair value measurements as of June 30, 2020:

Investments in the Tehama County Treasury Investment Pool are not measured using the input levels above because the District's transactions are based on a stable net asset value per share. All contributions and redemptions are transacted at \$1.00 net asset value per share.

**CORNING UNION HIGH SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

Cash in County Treasury

The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer in accordance with Education Code Section 41001. The fair value of the District's investment in the pool is reported in the accounting financial statements at amounts based upon the District's pro rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

Policies and Practices

The District is authorized under California Government Code Section 53635 to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; and collateralized mortgage obligations.

Limitations as they relate to interest rate risk, credit risk, custodial credit risk – deposits, and concentration of credit risk are described below:

1. Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District manages its exposure to interest rate risk by investing in the County Treasury. The District maintains an investment with the Tehama County Investment Pool with a fair value of approximately \$147.7 million and an amortized book value of \$142.8 million.

2. Credit Risk

Credit risk is the risk of loss due to the failure of the security issuer. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The investment with the Tehama County Investment Pool is governed by the County's general investment policy. The investment with the Tehama County Investment Pool is rated at least BBB by Standards & Poor's Investor Service.

3. Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk for deposits. However, the California Government code requires that a financial institution secure deposits made by State or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under State law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agencies. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits.

**CORNING UNION HIGH SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

4. Concentration of Credit Risk

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond the amount stipulated by the California Government code. District investments that are greater than 5 percent of total investments are in either an external investment pool or mutual funds and are therefore exempt.

NOTE 3 - ACCOUNTS RECEIVABLE

Accounts receivable consisted of the following as of June 30, 2020:

Receivables	General Fund	Nonmajor Funds	Total
Federal Government	\$ 174,034	\$ 94,390	\$ 268,424
State Government	2,125,381	38,557	2,163,938

Totals	<u>\$ 2,469,570</u>	<u>\$ 132,947</u>	<u>\$ 2,602,517</u>

NOTE 4 - INTERFUND TRANSACTIONS

Interfund transactions are reported as loans, services provided, reimbursements, or transfers. Loans are reported as interfund receivables and payables (Due From/To), as appropriate, and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund, and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers among governmental funds are netted as part of the reconciliation to the government-wide financial statements.

As of June 30, 2020, interfund receivables and payables were as follows:

Fund	Due From	Due To
General Fund	72,376	2,901
Adult Education Fund	-	32,039
Capital Facilities Fund	2,901	-
Cafeteria Fund	-	27,650
Foundation Fund	-	12,687
Totals	<u>\$ 75,277</u>	<u>\$ 75,277</u>

Interfund transfers consist of operating transfers from funds receiving revenues to funds through which the resources are to be expended. There were no interfund transfers for fiscal year 2019-2020:

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

Payments on the general obligation bonds are made by the Bond Interest and Redemption Fund from local revenues. Capital leases, note payable, and the line of credit are paid out of the General Fund. The retirement incentives, compensated absences, net pension liabilities and other postemployment benefits will be paid by the fund for which the employee worked.

NOTE 7 - GENERAL OBLIGATION BONDS

In November 2016, the District received authorization through Measure K to issue \$8,300,000 of bonds. The bonds are general obligation bonds of the District, and the County is obligated to annually levy ad valorem taxes for the payment of interest on, and the principal of, the bonds. Bond proceeds are to be used to improve the quality of education by repairing and replacing leaky roofs; making health, safety, and security improvements; updating inadequate electrical and technology infrastructure; modernizing and renovating outdated classrooms, restrooms, and school facilities; and replacing temporary portables with permanent classrooms.

On November of 2018, the District issued \$2,700,000 of 2018 Series B General Obligation Bonds, under the Measure K authorization, to finance the acquisition, construction, furnishing and equipping of District facilities. The bonds were issued with \$142,085 in premiums, and issuance costs of \$199,728. The bonds bear fixed interest rates ranging between 3.1% and 4.0% with annual maturities from August 1, 2019 through August 1, 2048.

The outstanding General Obligation Bond debt of the District as of June 30, 2020, is as follows:

NOTE 10 - JOINT VENTURES (JOINT POWERS AGREEMENTS)

The District participates in joint ventures under joint powers agreements with the following joint powers authorities (JPAs): Northern California Schools Insurance Group (NCSIG), North Valley Schools Insurance Group (NVSIG), California's Valued Trust (CVT), Schools Excess Liability Fund (SELF), Northern California Regional Liability Excess Fund (ReLiEF), and Tri-County Schools Insurance Group (TCSIG). The relationship between the District and the JPAs is such that the JPAs are not component units of the District for financial reporting purposes.

The JPAs arrange for and provide property, liability, health care, workers' compensation, and excess liability coverage for their members. Each JPA is governed by a board consisting of representatives from

**CORNING UNION HIGH SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

the members. The boards control the operations of the JPAs, including selection of management and approval of operating budgets, independent of any influence by the members beyond their representation on the boards. Each member pays a premium commensurate with the level of coverage requested and shares surpluses and deficits proportionate to its participation in the JPA. The District's share of year-end assets, liabilities, or fund equity is not calculated by the JPAs. Separately issued financial statements can be requested from each JPA.

NOTE 11 - COMMITMENTS AND CONTINGENCIES

State and Federal Allowances, Awards, and Grants

The District has received federal and state funds for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could generate expenditure disallowances under terms of the grants, it is believed that any required reimbursement will not be material.

Litigation

The District is involved in certain legal matters that arose out of the normal course of business. The District has not accrued a liability for any potential litigation against it because it does not meet the criteria to be considered a liability at June 30, 2020.

NOTE 12 - EMPLOYEE RETIREMENT SYSTEMS

Qualified employees are covered under cost-sharing, multi-employer defined benefit pension plans maintained by agencies of the State of California. Classified employees are members of the California Public Employees' Retirement System (CalPERS), and certificated employees are members of the California State Teachers' Retirement System (CalSTRS).

For the fiscal year ended June 30, 2020, the District reported net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense for CalPERS and CalSTRS as follows:

Pension Plan	Net Pension Liability	Deferred Outflows of Resources	Deferred Inflows of Resources	Pension Expense
PERS	\$ 5,213,907	\$ 1,222,430	\$ 52,136	\$ 1,130,487

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

Benefits Provided - CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for the Plan are applied as specified by the Public Employees' Retirement Law.

The Plans' provisions and benefits in effect at June 30, 2020, are summarized as follows:

Contributions - Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for the Plan are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

For the year ended June 30, 2020, the District's contributions were as follows:

	CalPERS
Employer Contributions	<u>\$ 509,312</u>

Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to PERS

As of June 30, 2020, the District reported net pension liabilities for its proportionate shares of the net pension liability of the Plan as follows:

	Proportionate Share of Net Pension Liability/(Asset)
CalPERS	<u>\$ 5,213,907</u>

**CORNING UNION HIGH SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

The District's net pension liability for the Plan is measured as the proportionate share of the net pension liability. The net pension liability of the Plan is measured as of June 30, 2019, and the total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2018 rolled forward to June 30, 2019 using standard update procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined.

The District's proportionate share of the net pension liability for the Plan as of measurement dates, June 30, 2019 and 2020, was as follows:

	<u>CalPERS</u>
Proportion - June 30, 2019	0.01755%
Proportion - June 30, 2020	0.01789%
Change - Increase/(Decrease)	<u>0.00034%</u>

For the year ended June 30, 2020, the District recognized pension expense of \$1,130,487 for the Plan.

At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>CalPERS</u>	
	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Changes of Assumptions	\$ 248,198	\$ -

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

Actuarial Assumptions - The total pension liabilities in the June 30, 2018 actuarial valuations were determined using the following actuarial assumptions:

Valuation Date	June 30, 2018
Measurement Date	June 30, 2019
Actuarial Cost Method	Entry-Age Normal Cost Method
Actuarial Assumptions:	
Discount Rate	7.15%
Inflation	2.50%
Payroll Growth	2.75%
Projected Salary Increase	(1)
Investment Rate of Return	7.15% (2)
Mortality	(3)

- (1) Varies by age and service
- (2) Net of pension plan investment expenses, including inflation
- (3) Derived using CalPERS' membership data for all funds

Discount Rate - The discount rate used to measure the total pension liability was 7.15%. To determine whether the municipal bond rate should be used in the calculation of a discount rate for the Plan, CalPERS stress tested employer rate plans within the Plan that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested employer rate plans run out of assets. Therefore, the current 7.15% discount rate is adequate and the use of the municipal bond rate calculation is not necessary. The stress test results are presented in a detailed report, GASB Statements 67 and 68 Crossover Testing Report for Measurement Date June 30, 2019 based on June 30, 2018 Valuations, that can be obtained from the CalPERS website.

According to Paragraph 30 of GASB 68, the long-term discount rate should be determined without reduction for pension plan administrative expense. For the CalPERS Plan, the 7.00% investment return assumption used in this accounting valuation is net of administrative expenses. Administrative expenses are assumed to be 15 basis points. An investment return excluding administrative expenses would have been 7.15%. Using this lower discount rate has resulted in a slightly higher total pension liability and net pension liability. CalPERS checked the materiality threshold for the difference in calculation and did not find it to be a material difference.

In the December 2016 and April 2017 meetings, the Board voted to lower the funding discount rates used for the PERF. In making its decision, the Board reviewed recommendations from CalPERS team members, external pension and investment consultants, and input from employer and employee stakeholder groups. A lowered funding discount rate for the PERF will be phased in over a three-year period beginning July 1, 2018 for public agencies and school districts.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Such cash flows

**CORNING UNION HIGH SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the Plan's asset classes, expected compound (geometric) returns were calculated over the short-term (first 11 years) and the long-term (60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for the Plan. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These geometric rates of return are net of administrative expenses.

Asset Class (a)	Assumed Asset Allocation	Real Return Years 1 - 10 (b)	Real Return Years 11+ (c)
Global Equity	50.00%	4.80%	5.98%

Real Estate	13.00%	3.75%	4.93%
Liquidity	1.00%	0.00%	-0.92%
Total	<u>100.00%</u>		

- (a) In the System's CAFR, Fixed Income is included in Global Debt Securities;
Liquidity is included in Short-term Investments; Inflation Assets are
included in both Global Equity Securities and Global Debt Securities.
- (b) An expected inflation of 2.0% used for this period.
- (c) An expected inflation of 2.92% used for this period.

California State Teachers' Retirement System (STRS) Pension Plan

General Information about the STRS Pension Plan

Plan Description - The District contributes to the State Teachers' Retirement System (STRS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by STRS. The plan provides retirement, disability, and survivor benefits to beneficiaries. Benefit provisions are established by state statutes, as legislatively amended, within the State Teachers' Retirement Law. STRS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information.

Benefits Provided - STRS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment. The cost of living adjustments for the Plan are applied as specified by the retirement Law.

The Plan's provisions and benefits in effect at June 30, 2020, are summarized as follows:

	CalSTRS	
	Tier 1	Tier 2
Benefit formula	2% @ 60	2% @ 62
Benefit vesting schedule	5 Years	5 Years
Benefit payments	Monthly for Life	Monthly for Life
Retirement age	60	62
Monthly benefits as a % of eligible compensation	2%	2%
Required employee contribution rates	10.250%	10.205%
Required employer contribution rates	17.100%	17.100%
Required State contribution rates	10.328%	10.328%

Contributions - As part of the annual valuation process, the Normal Cost rate is determined as the basis for setting the base member contribution rate for the following fiscal year. Generally, the base member contribution rate is one-half of the Normal Cost rate within certain parameters. Required member, employer and state contribution rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. Contribution rates are expressed as a level percentage of payroll using the entry age normal actuarial cost method.

For the year ended June 30, 2020 the District's contributions were as follows:

	CalSTRS
Employer Contributions	\$ 867,747
State Contributions	584,872

Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to STRS

As of June 30, 2020, the District reported net pension liabilities for its proportionate shares of the net pension liability of the Plan as follows:

	Proportionate Share of Net Pension Liability/(Asset)
District	\$ 8,128,440
State	4,434,633
Total	\$ 12,563,073

The District's net pension liability for the Plan is measured as the proportionate share of the net pension liability. The net pension liability of the Plan is measured as of June 30, 2019, and the total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2018 rolled forward to June 30, 2019 using standard update procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. The state contributed 8.49% percent of the members' creditable earnings from the fiscal year ending in the prior calendar year plus an additional \$146,908 as required by SB90. Also, as a result of AB 1469, the additional state appropriation required to fully fund the benefits in effect as of 1990 by 2046 is specific in subdivision (b) of Education Code Section 22955.1. The increased contributions end as of fiscal year 2045-2046.

The District's proportionate share of the net pension liability for the Plan as of measurement dates, June 30, 2019 and 2020, was as follows:

	CalSTRS
Proportion - June 30, 2019	0.00800%
Proportion - June 30, 2020	0.00900%
Change - Increase/(Decrease)	0.00100%

For the year ended June 30, 2020, the District recognized pension expense of \$1,774,903 for the Plan, of which, a total of \$584,872 came from state contributions.

Actuarial Assumptions - The total pension liabilities in the June 30, 2018 actuarial valuations were determined using the following actuarial assumptions:

Valuation Date	June 30, 2018
Measurement Date	June 30, 2019
Actuarial Cost Method	Entry-Age Normal Cost Method
Actuarial Assumptions:	
Discount Rate	7.10%
Inflation	2.75%

- (2) Net of investment expense but gross of administrative expenses.
- (3) Based on 110% of the MP-2016 Ultimate Projection

Discount Rate - The discount rate used to measure the total pension liability was 7.10 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at statutory contribution rates in accordance with the rate increases per AB 1469. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10 percent) and assuming that contributions, benefit payments, and administrative expense occur midyear. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 13 - POSTEMPLOYMENT HEALTHCARE PLAN (OPEB)

Plan Description and Benefits - The District currently provides retiree medical, dental, and vision benefits. The Plan is a single-employer defined benefit healthcare plan administered by the District. These benefits are offered as a package through California's Valued Trust (CVT). Certificated, Administrative, and Unrepresented Classified employees may retire with District-paid health benefits after the later of age 55 and completion of at least 10 years of District service, until age 65. Medical, dental and vision coverage, including spousal and dependent coverage, is payable up to the premium in effect in the year of the employee's retirement, subject to the District cap on benefits. Classified employees covered by the CTA-ESP bargaining agreement are eligible for the same benefits as described above for other groups. All CTA-ESP employees are eligible for District-paid retiree health benefits, regardless of hire date.

Employees Covered by Benefit Terms - At June 30, 2020 (the valuation date), the benefit terms covered the following employees:

Active employees	105
Inactive employees	<u>11</u>
Total employees	<u><u>116</u></u>

Contributions - The District makes contributions based on an actuarially determined rate and are approved by the authority of the District's Board. Total contributions to the OPEB plan during the year were \$104,233. Total benefit payments included in the measurement period were \$127,646. The actuarially determined contribution for the measurement period was \$258,275. The District's contributions were 1.72% of covered employee payroll during the measurement period June 30, 2020 (reporting period June 30, 2020). Employees are not required to contribute to the plan. There have been no assets accumulated in a trust to provide for the benefits of this plan as of measurement date June 30, 2020.

NOTE 14 – COVID-19 PANDEMIC IMPACT

In December 2019, a novel strain of coronavirus surfaced (COVID-19) and spread around the world, with resulting business and social disruption. In response to the pandemic, and in compliance with various state and local ordinances, the District closed physical campuses and transitioned to a distance learning model. On March 13, 2020, the Governor of California issued Executive Order N-26 – 20, guaranteeing state funding to support the continued payment of salaries and benefits to all employees through June 30, 2020.

The operations and business results of the District could be materially and adversely affected in the future, including a reduction in the level of funding and potential impacts from the timing of cash flows. In addition, significant estimates may be materially and adversely impacted by national, state and local events designed to contain the coronavirus. Debt ratings for outstanding issuances may further be impacted. For the 2020-2021 school year, the District is offering instruction in formats consistent with local health guidelines. Throughout the pandemic the District has put into practice a number of safety measures to protect students and employees and will continue to revise them as needed.

The District employs budget control by object codes and by individual appropriation accounts. Budgets are prepared on the modified accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board. The budgets are revised during the year by the Board of Education to provide for revised priorities. Expenditures cannot legally exceed appropriations by major object code. Excess expenditure for salaries, benefits, and services were due to unanticipated Covid-related costs. The originally adopted and final revised budgets for the General Fund are presented as Required Supplementary Information. The basis of budgeting is the same as GAAP.

On March 16, 2020, the California Legislature passed and, on March 17, 2020, Governor Newsom signed, Senate Bill (SB) 117. This bill is a companion to Governor Newsom's Executive Order N-26-20 and mitigates the effect of lost attendance due to COVID-19 that occurred after February 29, 2020. For the purpose of preventing losses of attendance-based funding as a result of reductions in average daily attendance (ADA) due to COVID-19, this legislation provides that the ADA used for both the second period (P-2) and the Annual period apportionment includes all full school months from July 1, 2019 to February 29, 2020 for all local educational agencies (LEAs).

(1) On March 13, 2020, the California Governor issued an Executive Order regarding the physical closure of schools by local educational agencies (LEAs) in response to the COVID-19 pandemic. Executive Order N-26-20 established a streamlined process for school closures (COVID-19 School Closure Certification) in lieu of the existing process for submitting Requests for Allowance of Attendance Due to Emergency Conditions (Form J-13A).

School districts and charter schools must maintain their instructional minutes as defined in Education Code Section 46207. This schedule is required of all districts and charter schools, including basic aid districts.

This schedule presents information on the amount of instruction time offered by the District and whether the District complied with the provisions of Education Code Sections 46200 through 46206.

Average daily attendance has increased by 99 over the past three years. The district anticipates an decrease of 28 ADA.

The general fund balance has increased by \$2,,037,337 over the past three years. For a district this size, the state recommends available reserves of at least 3% of total general fund expenditures, transfers out, other uses (total outgo).

The district has shown an operating surplus in all of the past three years. Total long-term debt has increased by \$3,579,385 over the past three years.

¹ Budget numbers are based on the first adopted budget of the fiscal year 2020/21

² Available reserves consists of all unassigned fund balances in the general fund, which includes the reserve for economic uncertainties.

NOTES TO STATE AND FEDERAL AWARD COMPLIANCE SECTIONS
FOR THE YEAR ENDED JUNE 30, 2020**

1. PURPOSE OF SCHEDULES

A. Schedule of Average Daily Attendance

Average daily attendance is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of state funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

B. Schedule of Instructional Time

The District has received incentive funding for increasing instructional time as provided by the Incentives for Longer Instructional Day and Longer Instructional Year. This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the provisions of Education Code Sections 46201 through 46206 and whether the Charter School complied with Education Code Sections 47612 and 47612.5.

C. Schedule of Charter Schools

This schedule is provided to list all charter schools chartered by the District and displays information for each charter school on whether or not the charter school is included in the District's financial statements.

D. Schedule of Financial Trends and Analysis

This schedule discloses the District's financial trends by displaying past years' data along with current year budget information. These financial trend disclosures are used to evaluate the District's ability to continue as a going concern for a reasonable period of time.

E. Schedule of Expenditures of Federal Awards

Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Regulations, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) requires a disclosure of the financial activities of all federally funded programs. This schedule was prepared to comply with Uniform Guidance requirements.

F. Reconciliation of Annual Financial and Budget Report with Audited Financial Statements

This schedule provides the information necessary to reconcile the fund balances of all funds as reported in the Unaudited Actual Financial Report in SACS to the audited financial statements.

2. RESULTS OF RECONCILIATIONS OF EXPENDITURES PER SCHEDULE OF GRANT ACTIVITY WITH THE DISTRICT'S ACCOUNTING SYSTEMS

There were no material unreconciled differences between the District's records and the schedule of federal grant activity as shown on the Schedule of Expenditures of Federal Awards.

**CORNING UNION HIGH SCHOOL DISTRICT
NOTES TO STATE AND FEDERAL AWARD COMPLIANCE SECTIONS
FOR THE YEAR ENDED JUNE 30, 2020**

3. BASIS OF PRESENTATION – SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Regulations, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

Expenditures reported on the schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowed or are limited as to reimbursement. Negative amounts shown on the schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. The District has elected not to use the 10 percent de minimus indirect cost rate as allowed under Uniform Guidance.

**OTHER INDEPENDENT
AUDITOR'S REPORTS**

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS***

Board of Trustees
Corning Union High School District
Corning, California

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Corning Union High School District (the District) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated March 25, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and

Chavan and Associates, LLP

material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH
MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER
COMPLIANCE IN ACCORDANCE WITH UNIFORM GUIDANCE**

Board of Education
Corning Union High School District
Corning, California

Report on Compliance for Each Major Federal Program

We have audited Corning Union High School District's (the District) compliance with the types of compliance requirements described in *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2020. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

Report on Internal Control over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of

requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS
THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON STATE PROGRAMS**

The Honorable Board of Trustees
Corning Union High School District
Corning, California

Compliance

We have audited the Corning Union High School District's (the District) compliance with the types of compliance requirements described in the *2019-20 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel, that could have a direct and material effect on each of the District's state programs identified below for the year ended June 30, 2020.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each applicable program as identified in the State's audit guide, *2019-20 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *2019-20 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel. Those standards, and state audit, guide require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above, that could have a material effect on compliance with the state laws and regulations described in the schedule below, occurred. An audit includes examining, on a test basis, evidence supporting the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the District's compliance with those requirements.

In connection with the compliance audit referred to above, we selected and tested transactions and records to determine the District's compliance with the state laws and regulations applicable to the following items:

Finding 2019-001; 50000 – Grant Reimbursements – General Process

Federal Program Information: 10.553, 10.555, 10.556, 10.559 Child Nutrition Cluster

Federal Grantor Agency: Food and Nutrition Services (FNS) of the U.S. Department of Agriculture (USDA)

Pass-Through Grantor Agency: California Department of Education

Criteria or Specific Requirements: Best practices dictate that the District have processes in place to ensure that grant reimbursements are filed timely and available grant funding is utilized to its fullest extent.

Condition: In review of the supporting documentation for School Nutrition Program (SNP) Claim for Reimbursement, we noted the following:

- The claim for July 2018 was not submitted within the 60-day requirement so the District did not receive reimbursement for this federal claim.

Questioned Costs: None.

Context: The District should maintain controls to prevent noncompliance with Uniform Guidance or detect and correct noncompliance with Uniform Guidance in a timely manner.

Effect: The District was unable to receive the revenue from this grant reimbursement.

Cause: The District did not have sufficient monitoring controls in place to allow the District to detect and correct this issue in a timely manner.

Recommendation: We recommend that the District establish procedures to ensure requirements are met with regard to SNP claims for reimbursement. For example, a secondary review of the due dates for claims reimbursements and a periodic review of claims to ensure they are submitted timely.

Corrective Action Plan: The District was aware of the issue and agrees with the recommendation

Status: Implemented.

Finding 2019-002; 50000 – Verification of Free and Reduced Price Applications

Federal Program Information: 10.553, 10.555, 10.556, 10.559 Child Nutrition Cluster

Federal Grantor Agency: Food and Nutrition Services (FNS) of the U.S. Department of Agriculture (USDA)

Pass-Through Grantor Agency: California Department of Education

Criteria or Specific Requirements: Pursuant to *Title 7 part 245.6a of the Code of Federal Regulations* require local educational agencies to perform a verification of applications each year. The sample size is required to be based on the number of approved applications on file as of October 1 of the current school year. The local education agency must complete the verification efforts no later than November 15 of each school year. If a student's eligibility status are determined to be have been changed from free to reduced price due to documents provided by a household, the District must notify the parents as soon as determination has been made and change the students' status ten days after notification. If a household fails to provide documents to complete the verification process by the deadline the students' eligibility for free or reduced price benefits shall be terminated after a ten day advance notification letter to parents.

Condition: During review of the District's verification process we noted the following:

1. The District did not determine the sample size based on the October 1st applications on file.
2. The District did not complete the verification process by the November 15th deadline.
3. In 1 of 1 applications sampled by the District were parents responded, the District did not notify or change students' status from free to reduced timely.
4. In 6 of 6 applications sampled by the District were parents failed responded by the deadline, the District did not notify or change students' status from free/reduced to denied timely.

Questioned Costs: None.

Context: The verification process is required to be done once a year to review income support for students whose eligibility of free or reduced meals was determined based on an application submitted.

Effect: The District is not in compliance of *Title 7 part 245.6a of the Code of Federal Regulations*. The District may be required to return funding for all students whose statuses were not properly changed after verification deadline.

Cause: The District utilizes a point of sale system with an integrated verification module. The District did not fully understand all steps required of the verification module and the deadlines of the verification process.

Recommendation: We recommend the District gain a full understanding of their point of sale verification module and how to use it. We recommend the District's management and staff review the requirements of Title 2 CFR 245.6a to ensure procedures are in place at the District to ensure deadline and procedures are followed each year. We also recommend the District keep all preparation and review documented for review (sign off with dates).

Corrective Action Plan - The District agrees with the auditor's recommendation and will implement policies and procedures during fiscal year 2019-20 to address the causes of the condition(s) noted.

Status: Implemented

Report on the Financial Statements

We have audited the accompanying financial statements of the Measure K Bonds of the Corning Union High School District (the "District"), as of and for the year ended June 30, 2020, and the related notes to the financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

The Corning Union High School District's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Measure K Bonds of the Corning Union High School District, as of June 30, 2020, and the changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

As discussed in Note 1, the financial statements present only the Measure K Bonds and do not purport to, and do not, present fairly the financial position of the Corning Union High School District, as of June 30, 2020, and the changes in its financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Measure K Bonds of Corning Union High School District's financial statements. The Schedule of Measure K Bonds Expenditures is presented for purposes of additional analysis and are not a required part of the financial statements. This information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Measure K Bonds Expenditures is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have issued our report dated April 6, 2021, on our consideration of the Corning Union High School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Corning Union High School District's internal control over financial reporting and compliance.

Report on Other Legal and Regulatory Requirements

In accordance with the requirements of Proposition 39, as incorporated in California Constitution Article 13A, we have also issued our performance audit report dated April 6, 2021 on our consideration of the Measure K Bond's compliance with the requirements of Proposition 39. That report is an integral part of our audit of the Measure K Bonds for the fiscal year ended June 30, 2020 and should be considered in assessing the results of our financial audit.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES

A. Accounting Principles

Corning Union High School District (the "District") accounts for its financial transactions in accordance with the policies and procedures of the Department of Education's *California School Accounting Manual*. The accounting policies of the District conform to accounting principles generally accepted in the United States of America as prescribed by the U. S. Governmental Accounting Standards Board ("GASB") and the American Institute of Certified Public Accountants ("AICPA").

B. Reporting Entity

The District is the level of government primarily accountable for activities related to public education. The governing authority consists of five elected officials who, together, constitute the Board of Trustees.

A committee to the District's Governing Board and Superintendent, called the Citizens' Bond Oversight Committee was established to inform the public concerning the expenditure and uses of the District's bond measure revenues. The committee's legal charge is to actively review and report on the expenditure of taxpayer money for school construction in accordance with voter approved projects.

The financial statements presented are for the Measure K Bonds and are not intended to be a complete presentation of the District's financial position on operations.

C. Basis of Presentation

Fund Financial Statements

Fund financial statements report detailed information about the District. The Measure K Bonds are reported in the District's Building Fund which is a governmental fund and is presented as a major fund in the District's combined financial statements. The Building Fund is used to account for proceeds from the sale of real property and account for the acquisition of major governmental capital facilities and buildings from the sale of bond proceeds such as Measure K general obligation bonds.

The accounting and financial treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets, deferred outflows of resources, current liabilities, and deferred inflows of resources, are generally included on the balance sheet. The Statement of Revenues, Expenditures and Changes in Fund Balance for the Measure K Bonds presents increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

D. Basis of Accounting

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Governmental funds use the modified accrual basis of accounting.

Revenues - Exchange and Non-exchange Transactions

On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Available" means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. To achieve comparability of reporting among California districts, and so as not to distort normal revenue patterns with specific respect to reimbursement grants and correction to state-aid appointments, the California Department of Education has defined available for district as collectible within one year.

Non-exchange transactions, in which the District receives value *without* directly giving equal value in return, include property taxes, grants, and entitlements. Under the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Unearned Revenue

Unearned revenue arises when assets (such as cash) are received before revenue recognition criteria have been satisfied. Grants and entitlements received before eligibility requirements (such as qualified expenditures) are met are recorded as liabilities from unearned revenue.

Unavailable Revenue

In the governmental fund financial statements, receivables associated with non-exchange transactions that will not be collected within the availability period have been recorded as deferred inflows of resources as unavailable revenue.

Expenditures

On the modified accrual basis of accounting, expenditures are generally recognized in the accounting period in which the related fund liability is incurred. However, under the modified accrual basis of accounting, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

E. Budgets and Budgetary Accounting

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. By state law, the District's governing board must adopt a final budget no later than July 1. A public hearing must be conducted to receive comments prior to adoption. The District's governing board satisfied these requirements. These budgets are revised by the District's governing board and District superintendent during the year to give consideration to unanticipated income and expenditures. Formal budgetary integration was employed as a management control device during the year for all budgeted funds. The District employs budget control by minor object and by individual appropriation accounts. Expenditures cannot legally exceed appropriations by major object.

F. Encumbrances

Encumbrance accounting is used in all budgeted funds to reserve portions of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts, and other commitments when they are written. Encumbrances are liquidated when the commitments are paid. All encumbrances are liquidated on June 30.

G. Assets, Liabilities, and Equity

1. Cash and Investments

Cash balances held in banks and in revolving funds are insured to \$250,000 by the Federal Deposit Insurance Corporation.

In accordance with *Education Code* Section 41001, the District maintains substantially all of its cash in the County Treasury. The county pools these funds with those of other Districts in the county and invests the cash. These pooled funds are carried at cost, which approximates market value. Interest earned is deposited quarterly into participating funds. Any investment losses are proportionately shared by all funds in the pool.

All District-directed investments are governed by Government Code Section 53601 and Treasury investment guidelines. The guidelines limit specific investments to government securities, domestic chartered financial securities, domestic corporate issues, and California municipal securities. The District's securities portfolio is held by the County Treasurer. Interest earned on investments is recorded as revenue of the fund from which the investment was made.

2. Cash & Cash Equivalents

The District's cash deposits are considered to be cash on hand and cash in banks. Cash and Cash Equivalents are generally considered short-term, highly liquid investments with a maturity of three months or less from the purchase date.

CORNING UNION HIGH SCHOOL DISTRICT
Measure K Bonds
Notes to the Financial Statements
For the Fiscal Year Ended June 30, 2020

3. Investments

Investments are recorded at fair value in accordance with GASB Statement No. 72, *Fair Value Measurement and Application*. Accordingly, the change in fair value of investments is recognized as an increase or decrease to investment assets and investment income.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction. In determining this amount, three valuation techniques are available:

- Market approach - This approach uses prices generated for identical or similar assets or liabilities. The most common example is an investment in a public security traded in an active exchange such as the NYSE.
- Cost approach - This technique determines the amount required to replace the current asset. This approach may be ideal for valuing donations of capital assets or historical treasures.
- Income approach - This approach converts future amounts (such as cash flows) into a current discounted amount.

Each of these valuation techniques requires inputs to calculate a fair value. Observable inputs have been maximized in fair value measures, and unobservable inputs have been minimized.

4. Long-Term Obligations

In the Measure K Bonds financial statements, bond premiums, discounts and bond issuance costs are recognized during the current period. The face amount of the debt issued, premiums, or discounts are reported as other financing sources/uses.

5. Fund Balance Classifications

In accordance with Government Accounting Standards Board 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the District classifies governmental fund balances as follows:

- Non-spendable includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual constraints.
- Restricted includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors, or amounts constrained due to constitutional provisions or enabling legislation.
- Committed includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision-making authority and does not lapse at year-end. Committed fund balances are imposed by the District's board of education.

CORNING UNION HIGH SCHOOL DISTRICT
Measure K Bonds
Notes to the Financial Statements
For the Fiscal Year Ended June 30, 2020

- Assigned includes fund balance amounts that are intended to be used for specific purposes that are neither considered restricted or committed. Fund balance may be assigned by the Superintendent.
- Unassigned includes positive fund balance that has not been classified within the above-mentioned categories and negative fund balances in other governmental funds.

The District uses restricted/committed amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as a grant agreement requiring dollar for dollar spending. Additionally, the District would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

6. Accounting Estimates

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 2 – CASH AND INVESTMENTS

Summary of Deposits

A summary of deposits as of June 30, 2020, is as follows:

	Carrying Amount	Fair Value
Cash in county treasury investment pool	\$ 145,482	\$ 150,521

Fair Value Measurements

GASB 72 established a hierarchy of inputs to the valuation techniques above. This hierarchy has three levels:

- Level 1 inputs are quoted prices in active markets for identical assets or liabilities.
- Level 2 inputs are quoted market prices for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other than quoted prices that are not observable.
- Level 3 inputs are unobservable inputs, such as a property valuation or an appraisal.

Investments in the County Treasury Investment Pool are not measured using the input levels above because the District's transactions are based on a stable net asset value per share. All contributions and redemptions are transacted at \$1.00 net asset value per share.

CORNING UNION HIGH SCHOOL DISTRICT
Measure K Bonds
Notes to the Financial Statements
For the Fiscal Year Ended June 30, 2020

Cash in County Treasury

The District is an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (Education Code Section 41001). The fair value of the District's investment in the pool is reported in the accounting financial statements at amounts based upon the District's pro rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

Policies and Practices

The District is authorized under California Government Code to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; and collateralized mortgage obligations.

Risk Disclosures

Limitations as they relate to interest rate risk, credit risk, and concentration of credit risk are described below:

- *Interest Rate Risk*

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to the changes in market interest rates. The District manages its exposure to interest rate risk by investing in the County Treasury. The District maintains cash with the Tehama County Investment Pool with a fair value of approximately \$147.7 million and an amortized book value of \$142.8 million.

- *Credit Risk*

Credit risk is the risk of loss due to the failure of the security issuer. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The investment with the Tehama County Investment Pool is governed by the County's general investment policy. The investment with the Tehama County Investment Pool is rated at least BBB by S&P's Investor Service.

- *Concentration of Credit Risk*

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond the amount stipulated by the California Government code. District investments that are greater than 5 percent of total investments are in either an external investment pool or mutual funds and are therefore exempt.

Total General Obligation Bonds				<u>\$ 5,782,083</u>	<u>\$ -</u>	<u>\$ 194,010</u>	<u>\$ 5,588,073</u>

In November 2016, the District received authorization through Measure K to issue \$8,300,000 of bonds. The bonds are general obligation bonds of the District, and the County is obligated to annually levy ad valorem taxes for the payment of interest on, and the principal of, the bonds. Bond proceeds are to be used to improve the quality of education by repairing and replacing leaky roofs; making health, safety, and security improvements; updating inadequate electrical and technology infrastructure; modernizing and renovating outdated classrooms, restrooms, and school facilities; and replacing temporary portables with permanent classrooms.

On November of 2018, the District issued \$2,700,000 of 2018 Series B General Obligation Bonds, under the Measure K authorization, to finance the acquisition, construction, furnishing and equipping of District facilities. The bonds were issued with \$142,085 in premiums, and issuance costs of \$199,728. The bonds bear fixed interest rates ranging between 3.1% and 4.0% with annual maturities from August 1, 2019 through August 1, 2048.

NOTE 1 - THE PROGRAM

Proposition 39 was enacted by the voters on November 7, 2000 and changed the required majority for local voter approval of public school and community college general obligation bonds from two-thirds to fifty-five percent of votes. It also required school districts to provide facilities to charter schools operating within their jurisdictions.

On November 8, 2016, the District's voters approved, by more than the required 55% favorable vote, Measure K, authorizing the issuance and sale of general obligation bonds, not to exceed \$8,300,000. On November of 2017, bonds in the amount of \$3,000,000 were issued at a premium of \$123,251. On November of 2018, Series 2018 B were issued for \$2,700,000 respectively. Measure K was used to improve the quality of education by repairing or replacing leaky roofs; make health, safety, and security improvements; update inadequate electrical and technology infrastructure; modernize/renovate outdated classrooms, restrooms, and school facilities; and replace temporary portables with permanent classrooms.

All projects funded by the issuance of Measure K general obligation bonds will be subject to review both by the District's Board of Trustees and by an independent citizens' oversight committee. The District will also provide many public forums to present progress and seek input from community members, parents, and staff.

NOTE 2 - ORGANIZATION

The Corning Union High School District (the "District") is located in Corning, California and was established in 1897. There were no changes in the boundaries of the District during the current year. The District is currently operating one high school, one continuation school, and one adult education program.

The Board of Education for the fiscal year ended June 30, 2020, was comprised of the following members:

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER
MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Measure K Citizens' Oversight Committee and
Governing Board Members
Corning Union High School District

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Measure K Bonds of the Corning Union High School District as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise Corning Union High School District's Measure K Bonds financial statements, and have issued our report thereon dated April 6, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Corning Union High School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Corning Union High School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Corning Union High School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Corning Union High School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts.

However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the district's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON PERFORMANCE AND COMPLIANCE
WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL
EFFECT ON THE MEASURE K BONDS PROGRAM**

Measure K Citizens' Oversight Committee and
Governing Board Members
Corning Union High School District

Compliance

We have audited Corning Union High School District's (the "District") compliance with Proposition 39/Measure K Bonds of the November 8, 2016 election, as approved under Proposition 39, and with the performance requirements referred to in Proposition 39 and outlined in Article XIII A, Section 1(b)(3)(C) of the California Constitution and the enactment of AB 1908 (Chapter 44, Statutes of 2000).

Management's Responsibility

Compliance with the requirements referred to above is the responsibility of the District's management.

Auditor's Responsibility

Our responsibility is to express an opinion on the District's compliance with the laws and regulations identified above based on our audit. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a material effect on compliance with the laws and regulations have occurred. An audit includes examining, on a test basis, evidence supporting the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the District's compliance with those requirements.

Audit Objectives

Our audit included the following objectives:

1. To obtain reasonable assurance that the proceeds of the sale of the Measure K Bonds were only used for the purposes set forth in the ballot measure and not for any other purpose, such as teacher and administrative salaries.
2. To obtain reasonable assurance that the Governing Board of the District, in establishing the approved projects set forth in the ballot measure, evaluated the remodeling, new construction and renovations of items which will relieve overcrowding, repair local schools and improve student safety conditions of the District.

3. To obtain reasonable assurance that the District complied with the performance requirements as referred to in Proposition 39 and outlined in Article XIII A, Section 1(b)(3)(C) of the California Constitution, the enactment of AB 1908 (Chapter 44, Statutes of 2000) and the bond measure. Management is responsible for the District's compliance with these requirements.

Scope and Methodology

To meet the objectives of our performance audit, procedures we performed included, but were not limited to, the following scope and methodology:

1. We documented and tested controls over financial reporting and compliance specific to the Measure K Bonds which included inquiries about separation of duties, account coding, timekeeping, pay rates, and procurement.
2. We selected one contract and verified their compliance with big requirements, and that their invoices were paid within the contract terms and with board approval.
3. We tested payments made to the architectural service companies and reviewed the terms of the contract.
4. We sampled and vouched 80% of the 2019-20 expenditures to supporting documentation to ensure they were valid, allowable, accurate.
5. We verified that the funds were generally expended for the construction, renovation, furnishing, and equipping of school facilities constituting authorized bond projects.
6. We verified that the District was in compliance with Assembly Bill 1908 and Ed Code Section 15278, where the District is required to establish a bond oversight committee for Proposition 39 bonds that includes one active member from each of the following sectors: a business organization, senior citizens' organization, bona fide taxpayer's association, and one parent/guardian of a child enrolled in the District and one parent/guardian of a child enrolled in the District who is also a member of a parent teacher association.
7. We verified the Citizens' Oversight Committee met pursuant to Education Code Section 15280.

Results of Procedures Performed

We did not identify any exceptions to the procedures performed above, nor any exceptions to other tests that we conducted related to the Measure K Bonds. Our audit of compliance was made for the purposes set forth in the Objectives section of this report and would not necessarily disclose all instances of noncompliance.

Opinion

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on the Measure K Bonds program for the fiscal year ended June 30, 2020.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing over compliance and the results of that testing based on the standards referred to above. Accordingly, this report is not suitable for any other purpose.
