10.5 SUPERINTENDENT REPORT:

The Board received the following information from Superintendent, Jared Caylor:

Benynon Track Care Info:

Brandon, Zane and Jared met with the Beynon rep last week to walk the track and discuss maintenance and other issues. He gave written guidance on maintaining the track and were able to ask questions as needed. He shared that the district will want to spend \$150 k every 8-10 years on redoing the surface. He shared if any damage was noticed to please phone them and let them know. Additionally, the district is looking into a time locking system for the north gate that would allow us to lock the gate automatically at designated times. This would help during the evenings, during the long summer days and over breaks and weekends. This would run about \$1,500.00 but we are going to look into the effectiveness before making a purchase.

South End of Stadium:

Working on a plan to install artificial turn throughout the south end of the stadium. This will prevent mud/dirt/rocks from ending up on the all-weather surfaced. The Board feels that this is highly important and would like to see possibly putting granite or something that will help to protect the track surface.

Parking Lot:

Superintendent, Jared Caylor plans to meet with the City Manager soon to discuss the lease of the 3 acre property across the street. This is the first option after gathering feedback and will bring an agreement back for final action once an agreement is reached.

Classrooms:

The next appointment to submit plans for classrooms to DSA is next week. The goal remains to build 14 Gen 7 classrooms and a restroom to replace the H and I wings, and build 8 pitched roof classrooms to replace the J wing. The timing is still uncertain.

North Gym:

Superintendent, Jared Caylor received the necessary documents to solicit bids on the North Gym roof and will be working on getting the information out to the public within the next couple of weeks.

11. PUBLIC COMMENT:

There were no public comment cards.

12.1 DISTRIBUTION OF STATEMENT OF ECONOMIC INTEREST:

The California Form 700 Fair Political Practices Commission Public Document was distributed to each Board Member. Each Board Member is required to fill out and filed this document on an annual basis.

This is an information item only. No action is needed.

12.2 LCAP UPDATE:

LCAP must describe the goals and specific actions to achieve those goals for all students and each student group identified by the Local Control Funding Formula (LCFF) and it must address each of the state priorities and any locally identified priorities.

This spring, we will be working on our annual update based on our goals, expected outcomes, actions/services and budgeted expenditures from last year's LCAP.

Our goals from last year:

- 1. Increase the number of student who are prepared for whatever postsecondary opportunity they chose to pursue.
- 2. Create responsibility among students.

If any additional services or actions are needed to work toward a goal, we Can look to add them. If services or actions need to be changed, we can make adjustments.

This is an information item only. No action is needed.

12.3 2016/17 AUDIT REPORT:

A motion was made by Scott Patton and seconded by Todd Henderson to approve the 2016-17 audit report as presented by Superintendent, Jared Caylor.

Page # 55 should read James Scott Patton rather than Henderson

Page #72 Internal Control

Material Weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

- 1. Travel Expense reimbursements and credit card charges made by the Superintendent were not reviewed and approved by the governing board.
- 2. Student was paid a scholarship award from the student store funds.
- 3. Checks being written for cash for cash box start up moneys. Checks should be made payable to the person who is going to the bank to cash the check and using the "Memo" part of the check to indicate "startup funds" so that is clear what the check was intended for.
- 4. Cash receipts- during test of internal controls over the cafeteria account, it was noted that deposits were not being transferred to the County Treasury on a timely basis (two timer per year). These are to be done monthly.

Enrollment is 971 in the district. CUHS enrollment is 918 Independent Study enrollment is 27 Centennial Enrollment is 26

There are 49 more students this year at CUHS compared to last year and overall 33 more students districtwide.

REPORT:

11.3 SUPERINTENDENT Superintendent Jared Caylor shared the following with the Board and audience:

- 1. Track- Painting was completed earlier this week. A 6 minute time lapse video was shared. This is a snapshot of the progress. A maintenance staff member will open the gate in the mornings and lock it at night. There is signage up with guidelines for use and are working on getting other signage regarding using the outside lanes for running and walking. The district will be working with our Construction Manager and architect to get the project closed out with DSA. Board Member, Jim Bingham shared that he would like to see the list and that anyone that uses it needs to be very responsible. They cannot jeopardize the integrity of the track. Jim is concerned that football cleats can be an issue as well. Superintendent, Jared Caylor shared that there have been two special pads ordered that can be rolled up and used during events to prevent damage. He will bring the list to the next meeting to share with the Board.
- 2. North Gym Roof- Preparing a request for proposals go to out in early 2018. The request will specify that the new roof needs to be 60 Mil PVC White Single Ply system with a 20 year NDL manufacturer warranty on material and labor. We will also require a 2 year workmanship guarantee. It will also state that 100% of the existing singly ply roofing system be removed and 50% of the 4' rigid roof insulation board and 5/8" board be removed. By going out to bid early in the year and not requiring a specific product, we are hoping to get more competitive bids and be in line to have the roof started in June.
- 3. Classrooms The plans were submitted to the state for approval yesterday. The appointment went well, but we will need to close out some old work related modernization and our fire alarm panel. This will cause our approval to get pushed back to mid-January some time. The timeline we are pushing is related to two things: one is to have our building fall under a 2013 approval already existing for these buildings. Thankfully, that approval has been extended by six months, so we have some time. The other timeline sensitive issues is related to getting in line for state money. Our architect is aware of the issue and will press to get the plans approved ASAP.

- 4. Superintendent, Jared Caylor wanted to formally invite the Board to our annual Holiday breakfast. It will be held on December 22nd in room E-4. We will be enjoying a wonderful meal prepared by Mrs. Williams and her Foods and Nutrition students. We will also be recognizing a couple of mid-year retirees.
- 5. Superintendent, Jared Caylor shared that a Thank You card was received from Rancho Tehama for the food, gift and notes that were given to them after the tragic event that occurred a few weeks ago. They were very grateful for the support from CUHSD.

12. PUBLIC COMMENT:

Departments are budgeting well and watching spending.
Trying not to deficit spent and meet the district reserve
Fund 11-73 – Adult Ed, Café, Deferred Maintenance, Ranch, BOND,
Capital Facilities & Scholarships

The deferred maintenance account moved over. The District has not been contributing to this account and should be. The Board can designate an amount to contribute to this account. Some examples of funding through this account are: painting of parking lot, temporary fix on North Gym and a refrigerator that was broken. Board Member, Jim Bingham suggested putting money into this account as a reserve to resurface the track in the future as needed. There are some large ticket items that should be addressed and money should be set aside in case of unexpected maintenance.

Superintendent, Jared Caylor suggested to the Board that this item be brought back to the table for discussion in the early Spring. This way projects can be determined, discussed and prioritized.

CBO, Christine Towne shared that if Average Daily Attendance (ADA) stays the same, which is at about 94% we are looking good for future years. Christine thanked the Board and asked if there were any additional questions. The Board thanked Christine for doing such a great job and commented that they were happy to see that the district is doing well financially.

Eric Moxon updated the Board on the financial status and suggested that there might be an interest of establishing a payment plan. There being no further discussion, the Board voted unanimously to approve one-time payment along with a monthly payment plan. This can be modified at any time that the Board feels necessary.

13.10 APPROVAL
OF LEASE WITH
CORNING FORD FOR
MAINTENANCE TRUCK:

A motion was made by Jim Bingham and seconded by Todd Henderson to approve the lease agreement with Corning Ford for maintenance truck. This is an agreement for \$30,297.23 60 payments at 5.45% APR. There was a brief discussion as to whether or not buy the truck out right. CBO, Christine Towne shared that it may cost a bit more and also the government discount is not given to the districts when they chose to buy the vehicles rather than leasing them. This is a five year muni lease agreement and then the district pays one dollar to own it at the end of the lease, if that is what the Board decided that they would like to do. This is set up to have annual payments rather than monthly and the District can decide to pay off and purchase at any time. Superintendent Jared Caylor will call and follow up with the board on details of price difference. There being no further discussion, the Board voted unanimously to approve the lease agreement.

13.11 CAMPUS SAFETY UPDATE:

Superintendent, Jared Caylor shared the following with the Board and audience:

There are four phases when it comes to security:

- 1. Mitigation-
- 2. Preparation-Instructional/Training

Annual Online Training (ALICE)
Weekly Bulletin Safety reminders

Evacuate and/or dynamic drills

Annual update of crisis response plan (confidential and

multi agency document)

3. Response- Multiple Alerts, bells, buttons, phone intercom Dynamic response- evacuate, lockdown or counter

Designated Admin responsibilities

Paging and email to communicate with staff

All call system to communicate with parents and guardians List of other contacts/ Board/Feeder Districts/ Pre-schools

4. Recovery- Reunification sites for parents/students
Updated contact information in hard copy form
Counseling

Board President, Scott Patton shared that we do not want the campus to appear as a jail but we do want our students and staff safe. Superintendent, Jared Caylor shared a diagram which shows the entire campus. This demonstrates the fenced areas and the non fenced areas. Board Clerk, Pauletta Bray thinks that the Board should really look into a further discussion of fencing the front area of the school where there is no fencing. Although there is plenty of fencing elsewhere, this seems to be a concerned area. Board Member, Jim Bingham brought up the discussion of having an SRO on campus as much as possible. Board President, Scott Patton thought that it may be a good idea to gather information from the teachers and staff. Superintendent, Jared Caylor will draft up a plan in the most esthetically pleasing way and bring that back to the board for further review and discussion.

13.12 FUTURE AGENDA ITEMS:

The following items will be brought back to the Board:

- 1. Deferred Maintenance Plan- Information.
- 2. Campus Security- Fence details and information.
- 3. Ranch Budget Audit and Expenses.

Board President, Scott Patton requested that the Cal Card information be included in the Board packet each month so that there is adequate time to review before the meeting. Superintendent, Jared Caylor assured that these would be included and would be part of the warrants.

Board President, Scott Patton asked if all of the Rodgers Ranch Scholarships are being used up and the CBO stated that she has not had much time to go through the account but will look into it. Superintendent, Jared Caylor will pull some detailed reports on the Ranch and bring that back to the Board for review.

4. BOARD WORKSHOP REGARDGING OPEN MEETING LAWS:

Roman Munoz, Attorney at Law of Dannis Woliver Kelley was present to share a presentation with the Board and the audience:

Brown Act- The people of the State do not yield their sovereignty to the agencies which serve them. The board members are elected into office and everything should always be made public. If there is any action to be taken, the public has the right to know.

Intent of the Brown Act- The intent is to keep the public informed of the actions, debates and views of locally elected representative and to provide the procedural framework for local legislators to meet, debate, act and listen collectively to their constituents

Board Role and Conduct- Board members have collective, not individual authority. Authority to make decisions is only granted to the board as a whole. No Board member has the authority other than as conferred by Board majority.

Only elected officials are subject to the Brown Act. Not the Superintendent or Superintendent's Assistant. The Board is expected to know the Brown Act, even before taking office.

Legislative Body includes commission, committee and Board. Board Clerk, Pauletta Bray asked if the Brown Act is for all local agencies and Roman Munoz shared that, yes it definitely is indeed.

What is/is not a meeting- Any majority of a legislative body at the same time and place, including teleconference locations to hear, discuss, or deliberate upon any time within the subject matter jurisdiction of the legislative body. Three members that meet is a violation of the Brown Act. The Board Retreat is posted to the public so this is fine. Appearance is everything and the perception of the public is not to be taken lightly. Board Member, Jim Bingham requested information with regard to phone calls. Roman Munoz shared that phone calls can become a problem.

Note: For any exclusion to apply, Board members must not discuss topics within the subject matter of the district "other than as part of the scheduled program".

A majority of the members of the Board shall not, outside a noticed meeting, use a series of communications of any kind, direct or through intermediaries, to discuss, deliberate, or take action on anytime of business that is within the board's jurisdiction.

Meeting Location & Logistics- A conference call is legal however, needs to be posted. An example would be if a member is out of town and staying in a hotel. The notice would need to be posted on the outside of the hotel room door, the door left open for any public to attend if desired. There has to be a quorum within the District boundaries and all votes at the meeting must be by roll call.

An example: Members can attend a City Council meeting but cannot sit together. Also, Graduation is not considered to be a meeting although every board member is present at the same time. CSBA conferences are not a notice meeting as they are typically for educational purposes.

Example #2: A parent comes to a board member with a concern and the board member phones another board member, another board member happens to be there visiting, that is a violation of the Brown Act.

Public Statements- Responding to emails requesting information sent to Trustees from the public:

- Trustees will refer the request to the board president with a copy to the superintendent.
- The board president and superintendent will agree on who responds
- If the superintendent responds, s/he will copy all trustees
- If the board president responds, s/he will copy the superintendent, who will pass it on to all trustees.

Permitted Communication-Private briefings for less than a quorum of board members on background events concerning agenda items do not violate the Act unless the comments or position of any other board member is disclosed.

Agenda Requirements- Agenda to be posted in a location freely accessible and searchable on the website to members of the public. There is a 72 hour posting requirement of regular meetings, 24 hours for special meetings. Agendas and backup should be made available when distributed to majority of the Board. The content of the agenda must include the following:

- > Time and location
- > How to request for accommodations may be made
- List of agenda items in sufficient detail to allow public to determine whether to participate
 - No required order of items
 - Closed session items must meet specific description requirements

Emergency Meetings- Not subject to the 24 hour notice requirement but are only for work stoppage, crippling activity, activity which severely impairs public health, safety or both, disaster and must attempt to provide notice.

Action & Vote Requirements- A decision is made by majority vote. The board must always act as if five members are present. Student Board members vote before the board members vote but their vote is not included in the vote tally of the Board.

Action on Non-Agenda Items- Board may consider items not on agenda in two circumstances which are emergency items and if there is a need to take action on an item that may have arose after the agenda was posted. This requires 2/3 vote. Sometimes it is better to hold a Special Meeting if there is sufficient advance notice.

Non-Agenda Items- The Board may ask for clarification or make a brief announcement or brief report of activity.

Public Rights- The public has the right to comment and the agenda must provide opportunity for public comment. The Board may place reasonable time limitation on particular topics or speakers. At special meetings, the public only has the right to address agenda items.

There was a discussion how difficulty can occur when the public and the board gets into a debate. It takes away from the order of the meeting. Each person should be allowed 2-3 minutes to speak and the advice from Roman would be to call a break, call a recess or phone law enforcement if needed.

Meeting Public Rights- The public may request to place an item directly on board agenda. The procedure would be for the public to phone Superintendent or Superintendent's Assistant for request. The Superintendent would then discuss with the Board President to discuss and determine if the items should be placed on the agenda.

Limited Public Forum/Public Comment- Public comment prior to open/closes session, at a regular/special meeting and regulating the length and content is suggested. Having comment cards is a good idea. After closed session, the Superintendent can quickly review and then determine what limits to set.

Meetings Public Rights- Public meetings are considered a limited public forum. Board need not permit disruptive conduct in a meeting and any person attending a public meeting may videotape, unless disruptive.

Closed Session- The Board may meet in closed session to discuss/take action on items within enumerated to the open meeting requirements. Act provided sample "safe harbor" closed session item descriptions.

Closed Session Procedure-

Who may attend:

Board Administrators Legal Counsel Board's Negotiators Parties specifically allowed

Who may not attend:
Opposing party
Other consultants

Closed Session Topics- Personnel Actions, Appointment, Employment, Evaluation, Discipline/Dismissal, Hearing Complaints or Charges against employees (require 24 hour notice of right to open session) and Labor Negotiations.

Closed Session Topics- Real Property Transactions, Pending and Anticipated Litigation, Tort Claims, Student Discipline hearings

Personnel Exception- Governing Boards may meet in closed session to consider the appointment, employment, evaluation of performance, discipline or dismissal of a public employee.

There was a brief discussion on Labor Negotiations. The Brown Act does not apply but this should not be abused. The Board runs the risk of violating the public's trust.

Employee Contracts- All contracts of employment with the Superintendent, deputy superintendent, assistant superintendent or associate superintendent shall be ratified in an open session of the governing body which shall be reflected in the governing body minutes. The Brown Act prohibits a board from holding a special meeting regarding salaries, salary schedules or compensation paid in the form of fringe benefits, of a "local agency executive".

Complaints of Chargers- Governing boards may meet in closed session to hear complaints or charges brought against the employee by another person or employee unless the employee requests a public session. A 24 hour notice is required. Performance evaluation is not a hearing about specific complaints of charges brought against an individual.

Labor Negotiations- May discuss salaries, salary schedules or compensation paid in the form of fringe benefits of its unrepresented employees and for the represented employees, any other matter which in the statutorily provided scope of representation.

Prior to closed session, the Board must identify its negotiator in open session.

Real Property Transactions- Limited to meeting with real property negotiators prior to sale or lease of property, to discuss confidential information concerning price or terms of payment during property negotiations.

Pending and Anticipated Litigation- To receive advice from legal counsel regarding pending or threatened litigation when discussion in open session would prejudice the position of the district in the litigation. Includes consideration of tort claims

Reporting Out- The Board must publicly report action taken in closed session. Must report if action was taken, report the vote and provide copies of contract, agreement or other approved documents to a requester at time session ends (if prior written request on file) otherwise the next day.

If a contract is signed in closed session, this is considered an agreement and this must be reported out. If nothing is signed, it does not need to be reported out. If action is taken on a personnel items, it has to be made a public notice.

What happens in closed session must stay in closed session. The Board members may not disclose confidential information from closed session.

Consequences are:

Injunctive relief
Disciplinary action
Referral to the grand jury
Expose the District/COE to potential liability.

If a board member violates the legal requirements to keep all closed session discussion confidential, the Board President and the Superintendent will take immediate action to rectify the matter.

Violations:

Criminal liability
Public can sue to stop violation of Act
Declaratory relief regarding past violation of the Act
Payment of attorney's fees
Voiding of action taken in violation of the Act
Court may order taping of closed session

There was a discussion that if there was a teacher that wanted to meet regarding the way that they are being treated. The recommendation from Roman Munoz was to let the employee know that there is an adopted board policy and process in place for these particular types of situations. Once the process if followed and if the employee is not satisfied, they then have the right to file an appeal to the Governing Board, if needed.

Board Member, Ken Vaughan asked Roman if the Corning Union High School has been in violation of the Brown Act and Roman confirmed, that the Governing Board has not.

Deanna Glover is an employee of the district and shared with the board the following feedback from the public's perspective:

The Board meetings start with closed session at the beginning of the meeting and it sometimes appears that the items on the agenda are discussed in closed session. At the recent organizational meeting, the board came out and had already seemed to determine who would be the new board president and board clerk. It may not be the case but this is what it appears to be.

The Board President typically has already met one on one with the Superintendent prior to the meeting so although some parts of closed session may appear to be orchestrated, often, this is not the case. The Superintendent usually has direction from the Board prior to the meeting.

Board Member Todd Henderson, confirmed that communication with board 3 or more board members should be done here at public meetings. Roman Munoz confirmed that this was correct. Roman reminded everyone that the Superintendent is always welcome to send weekly updates but the board cannot discuss school matters outside of the board meetings unless there are 2 members only. 3 or more board members, is a violation of the Brown Act.

Roman Munoz did share with the Board and audience that closed session at the beginning of the meetings is the recommendation that he gives. The reason is that usually there are very important topics to be discussed in closed session which require a lot of attention.

Roman J. Munoz thanked the Board for listening to the presentation and wished the Board a very Merry Christmas and Happy Holidays.

5. ADJOURNMENT:

A motion was made by Pauletta Bray and seconded by Ken Vaughan to unanimously approve to adjourn the meeting at 7:45 p.m. There being no further discussion, the Board adjourned the meeting.

Beynon Track Care Info

Brandon, Zane and I met with the Beynon rep last week to walk the track and discuss maintenance and other issues. He gave written guidance on maintaining the track and we were able to ask questions as needed. He also said that we will want to plan to spend about \$150k every 8-10 years on redoing the surface. His primary message was, "if you see any damage, don't wait to call us". Information on how to care for the track has been distributed and we are working on making sure our signage is adequate. We also addressed three areas of the all weather surface that have had standing water. Two are in the lanes on the east side of the field. One is near the flagpole. Beynon has agreed to come out and fix those in June at no cost to us. In the meantime, they gave us a tool to try to keep the water off of those areas when it rains.

Additional note: We are also looking at a timed locking system for the north gate that would allow us to lock the gate automatically at designated times. This would provide for the stadium remain open in the evenings during the longer summer days and would also allow for it to be open over breaks and weekends. Right now, we don't have the necessary staff to unlock, lock the gate on weekends. This locking system runs about \$1500, but we want to verify its effectiveness with other schools that use it.

South End of Stadium

We are working on a plan to install artificial turf throughout the south end of the stadium. This will prevent mud/dirt/rocks from ending up on the all weather surface and should help prolong the life of the track. We believe we can get the turf for a very affordable price and would then only need to lay down some road base to install it.

Parking Lot

I have been in contact with the City Manager regarding potential terms for leasing a 3 acre property across the street to put new parking this summer. I will be treating that as our first option for parking moving forward. If we can agree on terms with the City, I will bring an agreement back to you for action. If for some reason that does not workout, we will revisit our other options.

Classrooms

Our next appointment to submit our plans for classrooms to DSA is next week. We have taken care of an closing out an old project from 2001 that should allow our plans to be approved. Our goal remains to build 14 Gen 7 classrooms and a restroom to replace the H and I wings, and build 8 pitched roof classrooms to replace the J wing. The timing of all that is still uncertain. The most likely scenario right now looks like we won't begin on classrooms until the summer of 2019. This will allow for our next bond disbursement to happen as scheduled and for us to hopefully have a clearer picture of when we might receive our new construction and modernization funding from the state.

North Gym Roof

I received the necessary documents to solicit bids on the North Gym roof today. I'll be working on getting that made public in the next couple of weeks.

Instructions - 3

Our LCAP must describe the goals and specific actions to achieve those goals for all students and each student group identified by the Local Control Funding Formula (LCFF) (ethnic, socioeconomically disadvantaged, English learners, foster youth, pupils with disabilities, and homeless youth), and it must address each of the state priorities and any locally identified priorities.

This spring, we will be working on our annual update based on our goals, expected outcomes, actions/services, and budgeted expenditures from last year's LCAP.

Our goals for last year's LCAP were 1) Increase the number of students who are prepared for whatever postsecondary opportunity they choose to pursue and 2) Create a safe and well-maintained learning environment that promotes respect and responsibility among students.

For each of these goals, there are actions that the district takes and services that the district provides to attempt to meet the goal. Over the coming months, I'll schedule times to work with various stakeholder groups (certificated staff, classified staff, administration, parents, students and community members) to review and update our LCAP as necessary. If any additional services or actions are needed to work toward a goal, we can look to add them. If services or actions need to be changed, we can make adjustments.

Eventually, the completed document will be brought to the Board for approval with the Budget in June.

INDEPENDENT AUDITORS' REPORT

To the Board of Trustees Corning Union High School District Corning, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Corning Union High School District (the District) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 11, 2018, on our consideration of Corning Union High School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Corning Union High School District's internal control over financial reporting and compliance.

Tittle & Company, LLP

Chico, California January 11, 2018

Year Ended June 30, 2017

- The governmental fund financial statements tell how basic services like regular and special education were financed in the short term as well as what remains for future spending.
- o Proprietary funds statements offer short- and long-term financial information about the activities the District operates like a business.
- The fiduciary fund financial statements provide information about the financial relationships in which the District acts solely as an agent or trustee for the benefit of others to whom the resources belong.

Notes to the financial statements, which are included in the financial statements, provide more detailed data and explain some of the information in the financial statements. The required supplementary information provides further explanations and provides additional support for the financial statements. A comparison of the District's budget for the year is included.

Reporting the District as a Whole

The District as a whole is reported in the government-wide financial statements and uses accounting methods similar to those used by companies in the private sector. All of the District's assets and liabilities are included in the statement of net position. The statement of activities reports all of the current year's revenues and expenses regardless of when cash is received or paid.

The District's financial health or position (net assets) can be measured by the difference between the District's assets and liabilities.

- Increases or decreases in the net assets of the District over time are indicators of whether its financial position is improving or deteriorating, respectively.
- Additional nonfinancial factors such as the condition of school buildings and other facilities, and changes in the property tax base of the District need to be considered in assessing the overall health of the District.

In the statement of net positions and the statement of activities, the activities are divided into two categories:

Governmental Activities

The basic services provided by the District, such as regular and special education, adult education, administration, and transportation are included here, and are primarily financed by property taxes and state formula aid. Nonbasic services, such as child nutrition and child development are also included here, but are financed by a combination of state and federal contracts and grants and local revenues.

Business-Type Activities

The District does not provide any services that should be included in this category.

Reporting the District's Most Significant Funds

The District's fund financial statements provide detailed information about the District's most significant funds, not the District as a whole. Some funds are required to be established by state law

The District's final budget for the General Fund anticipated that expenditures would exceed revenues by \$107,913. The actual results for the year showed an increase in fund balance of \$343,411.

This increase is a result of:

One-time moneys received but not expended, CTE and Adult Ed revenues not yet expended.

Capital Asset and Debt Administration

The notes to the financial statements are an integral part of the financial presentation and contain more detailed information regarding capital assets and long term debt.

Capital Assets

By June 30, 2017, the District had invested \$12,896,897 in a broad range of capital assets including land, construction in progress, school buildings, equipment, and administrative offices (See Table 5). This amount represents a decrease of \$300,189, or 2.3%, from last year. More detailed information about the District's capital assets is presented in the notes to the financial statements.

Long-Term Debt

Increase in compensated absences is due to the payout of vacation for employee terminations.

Early retirement incentives decreased due to normally scheduled payments.

The long-term line of credit used to accelerate completion of approved projects at the ranch providing expansion of instructional programs for the immediate use of CUHS students.

The Net OPEB Obligation is the difference between the annual required contribution that the District needs to make to fund future retiree health benefits for current employees and what is actually paid for health premiums for the retiree group.

1. SIGNIFICANT ACCOUNTING POLICIES

Financial Reporting Entity

The District is governed by an elected five member board. The District operates one high school, one continuation high school, one community day school, and one non-attendance based adult education program in Corning, California.

The District accounts for its financial transactions in accordance with the policies and procedures of the Department of Education's *California School Accounting Manual*. The accounting policies of the District conform to accounting principles generally accepted in the United States of America (GAAP) as presented by the Governmental Accounting Standards Board (GASB) and the American Institute of Certified Public Accountants (AICPA).

Component Units

Component units are legally separate organizations for which the District is financially accountable. Component units may also include organizations that are fiscally dependent on the District in that the District approves their budget, the issuance of their debt or the levying of their taxes. In addition, component units are other legally separate organizations for which the District is not financially accountable but the nature and significance of the organization's relationship with the District is such that exclusion would cause the District's financial statements to be misleading or incomplete.

The component unit that is blended into the reporting entity activity of the District's report is the Corning Union High School Master Endowment Trust (the Trust). The Trust is a tax exempt corporation under Internal Revenue Code Section 501(c)(3) and was formed to manage the bequest of the Rodgers Ranch to the District. The purpose of the Trust is to maintain Rodgers Ranch, promote agriculture education at the District, and to provide scholarships to District students. The scholarship portion of the Trust is reported as a Private-Purpose Trust Fund and the remaining portion of the Trust is reported as Foundation Special Revenue Fund in the District's financial statements. Individually prepared financial statements are not available for the Trust.

Basis of Presentation

Government-wide Financial Statements: The statement of net position and the statement of activities include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. Government activities are generally financed through taxes, intergovernmental revenues, and other nonexchange revenues.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include charges paid by recipients of goods or services offered by the programs and grants and contributions that are restricted to

Year Ended June 30, 2017

Agency Funds are used to account for assets of others for whom the District acts as an agent. The District maintains agency funds for student body accounts, which are used to account for the raising and expending of money to promote the general welfare, morale, and educational experience of the student body.

Basis of Accounting/Measurement Focus

Government-wide and Fiduciary Fund Financial Statements: These financial statements are reported using the economic resources measurement focus. The government-wide, proprietary fund and fiduciary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the released cash flows take place.

Non-exchange transactions, in which the District's gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Agency Funds utilize the accrual basis of accounting but do not have a measurement focus as they report only assets and liabilities.

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they become available and measurable. The District considers revenues as available if they are collected within 60 days after year end. Revenues susceptible to accrual are property taxes, fiscal year state funding, and interest revenues. All other revenue items are considered to be measurable and available only when cash is received by the government. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

When the District incurs an expenditure or expense for which both restricted and unrestricted resources may be used, it is the District's policy to use restricted resources first, then unrestricted resources. When an expenditure is incurred for which committed, assigned, or unassigned fund balance are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

Deferred inflows of resources are reported in the governmental funds when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Unearned revenues arise when resources are received by the government before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria is met, or when the government has a legal claim to the resources, the revenue is recognized.

Year Ended June 30, 2017

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

Deferred Outflows of Resources and Deferred Inflows of Resources

Certain defined transactions that do not qualify for treatment as either assets or liabilities are required to be accounted for and reported as either deferred outflows of resources (a separate subheading following assets but before liabilities) or deferred inflows of resources (a separate subheading following liabilities but before equity).

Deferred outflows of resources—a consumption of net assets by the government that is applicable to a future reporting period. It has a positive effect on net position, similar to assets.

Deferred inflows of resources—an acquisition of net assets by the government that is applicable to a future reporting period. It has a negative effect on net position, similar to liabilities.

Deferred Outflows of Resources: In the government-wide financial statements, insurance costs arising from the issuance of debt are reported as deferred outflows and amortized over the term of the related debt. Deferred amounts from a refunding of debt (debits) are reported as deferred outflows of resources and are amortized over the lesser life of the refunded bonds or refunding debt.

Deferred outflows of resources for pension are reported in the government-wide financial statements of net position. Deferred outflows result from pension plan contributions made after the measurement date of the net pension liability. Deferred outflows also include the District's proportionate share of the deferred outflows of resources of the CalSTRS and CalPERS pension plans. These deferred outflows include the differences between expected and actual economic experience and changes in actuarial assumptions. The deferred outflows of resources related to the District's contributions which are subsequent to the measurement date will be recognized as a reduction of the net pension liability in the next fiscal year. The other pension related deferred outflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with pensions through the pension plan.

Deferred Inflows of Resources: Deferred amounts from refunding debt (credits) are reported as deferred inflows of resources and are amortized over the lesser life of the refunded bonds or refunding debt.

Deferred inflows of resources for pensions are reported in the government-wide financial statement of net position and result primarily from differences between projected and actual earnings on pension plan investments. These amounts will be amortized over a closed five year period.

Compensated Absences

Accumulated unpaid employee vacation benefits are accrued as a liability as the benefits are earned. The entire compensated absence liability is reported on the government-wide financial statements. For governmental funds, the current portion of unpaid compensated absences is recognized upon the occurrence of relevant events such as employee resignations and

Restricted net assets consists of net assets with constraints placed on the use either by external groups, such as creditors, grantors, contributors, or laws or regulations of other governments, or law through constitutional provisions or enabling legislation.

Unrestricted net assets consists of all other net assets that do not meet the definition of "restricted" or "net investment in capital assets".

Fund Balance

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. There are two major categories of fund balances, which are nonspendable and spendable.

Nonspendable fund balances are balances that cannot be spent because they are not expected to be converted to cash or they are legally or contractually required to remain intact.

The spendable portion of the fund balance comprises the remaining four classifications: restricted, committed, assigned, and unassigned.

Restricted fund balance reflects the constraints imposed on resources either (a) externally by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Committed fund balance can only be used for specific purposes pursuant to constraints imposed by formal resolutions of the board of trustees-the government's highest level of decision making authority. Those committed amounts cannot be used for any other purpose unless the board of trustees removes the specified use by taking some type of action imposing the commitment.

Assigned fund balance reflects the amounts constrained by the District's own "intent" to be used for specific purposes, but are neither restricted nor committed. The board of trustees and designee of the board of trustees have the authority to assign amounts to be used for specific purposes. Assigned fund balances include all remaining amounts (except negative balances) that are reported in governmental funds, other than the General Fund, that are not classified as nonspendable and are neither restricted nor committed.

Unassigned fund balance is the residual classification for the General Fund. It is also used to report negative fund balances in other governmental funds.

When both restricted and unrestricted resources are available for use, it is the District's policy to use externally restricted resources first, and then unrestricted resources-committed, assigned, and unassigned-in order as needed.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Year Ended June 30, 2017

In accordance with *California Education Code* Section 41001, the District maintains substantially all of its cash in the County Treasury as part of the common investment pool. The fair value of the District's investment in the pool is based upon the District's pro rata share of the fair value provided by the County Treasurer for the entire portfolio (in related to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a deposit policy for custodial credit risk. As of June 30, 2017 all of the District's deposits were insured.

Custodial Credit Risk - Investments

For an investment, custodial credit risk is the risk that in the event of a bank failure, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. As of June 30, 2017 all of the District's investments were insured.

Credit Risk - Investments

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. *California Government Code* Section 53601 limits investments in commercial paper to "prime" quality of the highest ranking or of the highest letter and numerical rating as provided by nationally recognized statistical rating organizations (NRSRO), and limits investments in medium-term notes to a rating of A or better. The District has no investment policy that would further limit its investment choices. The District's investment in the county investment pool is unrated. At June 30, 2017, the District's investments were rated as follows:

Year Ended June 30, 2017

	Less than One									
R. R. A. A. A. B.	Fair Value			Year	One to Five Years					
Bonds & fixed income securities	\$	3,988,092	\$	-	\$	3,988,092

Total Investments	\$	4,131,646	\$	143,554	\$	3,988,092				

Fair Value

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The District's fair value measurements at June 30, 2017 are valued using quoted market prices (Level 1 inputs).

Year Ended June 30, 2017

Funding Policy

The District contributes the cost of the premium in effect in the year of the employee's retirement, subject to the District's cap on the benefits.

Annual OPEB Cost and Net OPEB Obligation

The District's annual OPEB cost (expense) is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed to the plan, and the changes in the District's net OPEB obligation:

14. PENSION PLANS

Plan Descriptions

Qualified employees are covered under cost-sharing multiple-employer defined benefit pension plans maintained by agencies of the State of California. Certificated employees are members of the California State Teachers Retirement System (CalSTRS) and classified employees are members of the School Employer Pool California Public Employees' Retirement System (CalPERS). Benefit provisions are established by state statute, as legislatively amended, within the State Teachers' Retirement Law and the Public Employees' Retirement Law. Support by the state for the CalSTRS plan is such that the plan has a special funding situation as defined by GASB Statement No 68. CalSTRS and CalPERS issue publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on their respective websites at www.calstrs.com and www.calpers.ca.gov.

Benefits Provided

The plans provide retirement and disability benefits, annual cost of living adjustments and death benefits to plan members and beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment. Members with five years of total service are eligible to retire at age 62 for normal benefits or at age 55 with statutorily reduced benefits. Employees hired prior to January 1, 2013 are eligible to retire with five years of total service at age 60, or with 30 years of total service at age 50, for normal benefits or at age 55 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. All members are eligible for death benefits after one year of total service.

The plans' provisions and benefits in effect at June 30, 2017 are summarized as follows:

	Cals	STRS	CalPERS

Contributions - CalPERS

Active plan members who entered into the plan prior to January 1, 2013 are required to contribute 7.0% of their salary. The California Public Employees' Pension Reform Act (PEPRA) specifies that new members entering into the plan on or after January 1, 2013, shall pay the higher of fifty percent of normal costs or 6.0% of their salary. Additionally, for new members entering the plan on or after January 1, 2013, the employer is prohibited from paying any of the employee contributions to CalPERS unless the employer payment of the member's contribution is specified in an employment agreement or collective bargaining agreement that expires after January 1, 2013.

Year Ended June 30, 2017

The District's proportionate share of the net pension liability for each plan was as follows:

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These rates of return are net of administrative expenses.

Asset Class	Strategic Allocation	Real Return Years 1-10*	Real Return Years 11+**
Global Equity	51%	5.25%	5.71%
Global Fixed Income	20%	0.99%	2.43%

Private Equity	10%	6.83%	6.95%
Real Estate	12%	4.50%	5.13%
Liquidity	1%	-0.55%	-1.05%

^{*} An expected inflation of 2.5% used for this period.

The long-term expected rate of return on CalSTRS pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best-estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant (Pension Consulting Alliance – PCA) as an input to the process. The actuarial investments rate of return assumption was adopted by the board in 2012 in conjunction with the most recent experience study. For each future valuation, CalSTRS consulting actuary (Milliman) reviews the return assumption for reasonableness based on the most current capital market assumptions. Best estimates of 20-year geometric real rates of return and the assumed asset allocation for each major asset class for the year ending June 30, 2016 are summarized in the following table:

Asset Class	Assumed Asset Allocation	Long-Term * Expected Real Rate of Return		
Global Equity	47%	Processing and the second	6.30%

Discount Rate

The discount rate used to measure the total pension liability was 7.60% for CalSTRS and 7.65% for CalPERS. To determine whether the District bond rate should be used in the calculation of a discount rate for each plan, CalSTRS and CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current discount

16. RISK MANAGEMENT

The District is exposed to various risks including loss or damage to property, general liability, and injuries to employees. Settled claims resulting from these risks have not exceeded insurance coverage in the past three years. No significant reductions in insurance coverage from the prior year have been made. As described above, the District participates in risk pools under JPAs for property and liability, health care, and workers' compensation coverage.

17. COMMITMENTS AND CONTINGENCIES

The District received financial assistance from federal and state government agencies in the form of grants. The disbursements of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the applicable fund. However, in the opinion of management, any such disallowed claims will not have material effect on any of the financial statements of the individual funds or the overall financial position of the District at June 30, 2017.

18. SUBSEQUENT EVENT

In October of 2017, the District entered into a Settlement Agreement and General Release with its former Superintendent (the Employee). In consideration for the Employee's resignation effective September 30, 2017, and settlement of any existing or potential disputes, the Employee will be paid an amount equal to seven months compensation (\$93,937) within a scheduled time frame. The outstanding loan balance referenced in Note 20 will be repaid from this amount. Following the District's receipt of the Fiscal Crisis Management Assistance Team's Assembly Bill (AB) 139 audit report, the District and the Employee shall negotiate in good faith to resolve any amounts owed by the District and/or Employee based on the District's internal investigation, the audit report, and such further information provided by the Employee.

19. NEW ACCOUNTING PRONOUNCEMENTS

In June 2015, GASB issued Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. This standard's primary objective is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions. The statement is effective for periods beginning after June 15, 2017. The District has not yet determined the impact on the financial statements.

In January 2017, GASB issued Statement No. 84, Fiduciary Activities. This standard's objective is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. The statement is effective for periods beginning after December 15, 2018. The District has not yet determined the impact on the financial statements.

In March 2017, GASB issued Statement No. 85, Omnibus 2017. This statement's objective is to address practice issues that have been identified during implementation and application of certain GASB statements. This statement addresses a variety of topics including issues related

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Trustees Corning Union High School District Corning, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Corning Union High School District School District (the District), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated January 11, 2018.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described in the accompanying schedule of findings and questions as item 2017-001 to be a material weakness.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as items 2017-002 and 2017-003 to be significant deficiencies.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Trustees Corning Union High School District Corning, California

Report on Compliance for Each Major Federal Program

We have audited Corning Union High School District's (the District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2017. The District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, Corning Union High School District, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

INTERNAL CONTROL (Cash Disbursements)

Material Weakness

Condition

During our tests of internal controls over cash disbursements, we noted that travel expense reimbursements and credit card charges made by the Superintendent were not reviewed and approved by the governing board.

Criteria

Internal controls should be in place to ensure that all expenditures have proper review and approval.

Effect

Without strengthening internal controls over cash disbursements, expenditures may not be for valid expenditures and /or approved activities.

Recommendation

We recommend that the District revise its travel and expense reimbursements policies to include that all travel expense reimbursements payable to Superintendent and all credit card charges made by Superintendent be reviewed and approved by the president of the governing board.

District's Response

The District's administration will implement procedures during fiscal year 2017-18 to comply with the recommendation.

CORNING UNION HIGH SCHOOL DISTRICT FINANCIAL STATEMENTS FINDINGS

Year Ended June 30, 2017

INTERNAL CONTROL (Student Body) 30000 (2017-002)

Significant Deficiency

Condition

During our tests of internal controls over student body cash disbursements, we noted the following:

- 1. One out of the ten disbursements tested was for an unallowable expenditure. A student was paid a scholarship award from student store funds. Scholarships paid from student body fundraisers rather than from outside donations are normally not allowable because they do not benefit a group of students. For allowable scholarship disbursements, cash awards are not allowed. Scholarship checks should be made payable to an institution of higher learning or a college bookstore, to be used toward tuition or books and supplies.
- 2. Checks are being written to cash for cash box start up moneys. Checks should be made payable to the person who is going to the bank to cash the check and using the "Memo" part of the check to indicate "startup funds" so that it is clear what the check was intended for.

Criteria

Internal controls should be in place to ensure that all student body expenditures have proper documentation and approval prior to payment and are for allowable expenses.

Effect

Without strengthening internal controls over student body assets, funds may not be properly safeguarded and expended for valid student body activities.

Recommendation

All student body disbursements should be for allowable expenses and checks should not be made payable to cash.

District's Response

The District's administration will implement procedures during fiscal year 2017-18 to comply with the recommendation.

CORNING UNION HIGH SCHOOL DISTRICT SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

Year Ended June 30, 2017

INTERNAL CONTROL (Student Body)

30000 (2016-001)

Significant Deficiency

Condition

Our test of internal controls over student body cash disbursements resulted in one of the ten disbursements tested not containing proper supporting documentation. Our test of internal controls over student body cash disbursements resulted in one of the ten disbursements tested being for unallowable expenditures. One student was paid for working as a shot clock operator. Payments to students for services must be paid through the District Payroll and not through ASB.

Criteria

Internal controls should be in place to provide that all student body expenditures have proper documentation and approval prior to payment and are for allowable expenses.

Effect

Without strengthening internal controls over student body assets, funds may not be properly safeguarded and expended for valid student body activities.

Recommendation

All disbursements should have proper documentation and authorization and be reviewed for allowability prior to payment.

CORNING UNION HIGH SCHOOL DISTRICT SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

Year Ended June 30, 2017

STATE COMPLIANCE (Unduplicated Pupil Count) 40000 (2016-003)

Significant Deficiency

Condition

During our testing of the Unduplicated Pupil Count we found four students that were marked as English Learners (EL) on the certified CALPADS report but no longer qualified for EL status and should have been redesignated out of the program before the census date of 10/1/2015. The unduplicated count for Free and Reduced Price (FRPM) eligible students was adequately supported

Criteria

Pursuant to Education Code 2574(b)(2) and 42238, the District is required to report the Unduplicated Pupil Count and Percentage to CALPADS to be used for LCFF funding purposes.

Effect

The table below summarizes the incorrectly reported pupil counts. There were no changes to the reported enrollment count. Without strengthening controls over the CALPADS reporting process, the Unduplicated Pupil Count may not be accurately reported to the California Department of Education for LCFF funding purposes. The current year LCFF state aid funding was overstated in the current year by \$4,336.

	Total Enrollment	Free and Reduced Meal Program (FRPM)	English Learners (ELAS)	Both FRPM & ELAS	Unidentified UPC (District funded county, etc.)	Total
Funded under LCFF	926	571	20	70	1	662
Audit Adjustments	-	-	(4)	-	-	(4)
Adjusted Counts	926	571	16	70	1	658

Recommendation

We recommend that the District implement procedures to ensure that students are properly classified in CALPADS for reporting the Unduplicated Pupil Counts.

Current Status

Fully implemented.

TO: Members of Northern California Schools Insurance Group (NCSIG)

RE: REQUEST FOR BOARD OF TRUSTEES RESOLUTION

APPROVING AMENDMENTS TO NCSIG JPA AGREEMENT & BYLAWS

On behalf of NCSIG and the Board of Directors, I wanted to send a special thanks to you and all other members of NCSIG for your continuing efforts to make this coverage program so successful. We have asked for your participation in many areas, and have another request as we approach the New Year.

As a result of CAJPA Accreditation which thoroughly reviews our JPA policies and procedures every three years, NCSIG needed to update our Bylaws and the JPA Agreement. The NCSIG Board of Directors voted in favor of the proposed Amendments at its December 7, 2017 meeting. Amendments to both the JPA Agreement and Bylaws each require approval by two-thirds of the entire membership. With this in mind, lask that you place this matter on your next Board agenda for prompt consideration.

In addition, I have attached a suggested Resolution asking your Board to approve the aforementioned Amendments, as well as a brief summary of the proposed changes. An editable version of this Resolution will be provided by email and also posted at the NCSIG website www.ncsigschools.com.

Please mail the original Resolution to NCSIG in the envelope provided. In addition, a scanned copy sent by email to Joy Moll at imoll@iwins.com would be greatly appreciated.

Please feel free to contact me if you have any comments or questions. Thank you and Happy New Year!

Sincerely,

Erik J. Knak, ARM, MBA NCSIG JPA Manager

NORTHERN CALIFORNIA SCHOOLS INSURANCE GROUP JOINT POWERS AUTHORITY PREAMBLE

Northern California Schools Insurance Group ("NCSIG") was established pursuant to the terms of a Joint Powers Agreement ("JPA Agreement") by and among its Public Educational Agencies ("PEA") for the purpose of providing the services and other items necessary and appropriate for the establishment, operation, and maintenance of a joint program for liability and property damage protection for the PEA's who are Members ("Members") hereof, and to provide a forum for discussion, study, development, and implementation of recommendations of mutual interest regarding pooled coverage and group purchase insurance and reinsurance programs. Pursuant to the terms of the JPA Agreement, NCSIG has adopted these Bylaws ("Bylaws") to apply to and govern NCSIG and its Members.

ARTICLE I BOARD OF DIRECTORS

- A. A Board of Directors is hereby established to represent the NCSIG membership.
- B. The Board of Directors shall be formed in the following manner. Each California County in which a majority of Public Educational Agencies in that county are members of NCSIG shall have representation on the Board of Directors. Representation from each county shall be on a weighted basis based on each county's combined Average Daily Attendance (ADA). ADA shall be as determined in the NCSIG Underwriting Policy for purposes of rate setting each year. Should a county's ADA change the county to a different size category, the change in number of Directors shall become effective at the beginning of the next fiscal year beginning July 1. Selection of Directors from each county shall be designated by the county's Superintendent of Schools and must be either a school administrator or a designated confidential employee of a member and shall serve at the pleasure of the Members in that county. Each Director shall be entitled to cast one vote in all matters requiring a vote, except in the case of an actual or potential conflict of interest.

If a Public Educational Agency is located in a county where the majority of Public Educational Agencies are not members of NCSIG, the size category and number of votes for that Director shall be as shown in the Table below. The Director would be appointed by the Superintendent of the Public Educational Entity with qualifying ADA. All votes allocated to each Director shall be cast together and cannot be split.

25,000 -	Over	4	

- D. Each Director shall annually designate an alternate representative from their PEA who is employed as a school administrator or a designated confidential employee that is authorized to act in the event of the absence of the appointed Director. Only the designated Director or alternate may serve on the board.
- E. The Board of Directors shall hold at least one regular meeting each fiscal year. The date, time, and location for each such regular meeting shall be fixed by the Board of Directors, and shall be publicly noticed prior to the meeting. All meetings of the Board of Directors shall be called, held, and conducted in accordance with the terms and provisions of the Ralph M. Brown Act (Sections 54950, et seq., of the California Government Code), as said Act may be modified by subsequent legislation, and as the same may be augmented by rules of the Board of Directors not inconsistent therewith. The Board may hold additional meetings as determined by the Board and consistent with Brown Act. Except as otherwise provided or permitted by law, all meetings of the Board are open and public. The Board of Directors will cause minutes of its meetings to be kept, and post the true and correct copies of the minutes of such meetings after Board approval.

- J. The Board of Directors shall review coverages that are provided to Members and establish policies and procedures for claims administration.

- K. The Board of Directors shall approve the terms of all related insurance, excess insurance, reinsurance and other agreements, including the terms of coverage, claims services, cost and compensation.
- L. The Board of Directors shall directly or by contract provide for services required to effectively implement all aspects of the Joint Program.
- M. The Board may authorize any Officer or Officers, agent or agents, to enter into any contract or execute any instrument in the name and on behalf of NCSIG, and such authorization may be general or confined to specific instances. Unless so authorized by the Board of Directors, no Officer, agent or employee shall have any authority to bind NCSIG by any contract or to pledge its credit or to render it liable for any purpose.

Jared Caylor, District Superintendent **Board of Trustees** Corning Union High School District

RE: Approval of 2017/2018 1st Interim Budget Report

We would like to thank you for your timely submission of the 2017/2018 1st Interim report. Our office has completed its review in compliance with the provisions of Education Code 42131(a) (2). The Code requires the County Superintendent to approve or disapprove Interim Reports after:

Examining the report to determine whether it complies with the standards and criteria established pursuant to Section 33127.

Determining whether the adopted budget will allow the district to meet its financial obligations during the fiscal year and is consistent with a financial plan that will enable the district to satisfy its multi-year financial commitments.

Based on our review, the 1st Interim Budget Report has been approved.

Additional changes, including attendance, new state programs, and the Governor's proposed 2018/2019 budget will be addressed in the 2nd Interim Report as more solid information becomes available. A complete listing of any technical corrections and recommendations has been sent directly to your chief business official.

Multi-Year Projections

Each LEA faces its own particular set of educational challenges, and there is no "one size fits all" plan. Similarly, each LEA faces its own particular set of financial risk factors based on current reserve levels, enrollment trends, bargaining agreements, degree of revenue volatility and various other local and statewide factors.

LEAs should consider building in contingencies for emerging and fixed expenditure obligations such as increasing employer contributions to employee retirement systems, the minimum wage increase, impacts of the Affordable Care Act, rising costs of health insurance, funding other post-employment benefits (OPEB) programs, or future facility needs, to name a few examples.

Cash Flow

Although the cash deferrals have been eliminated, it remains important to closely monitor cash throughout the year to ensure that the June 30 cash balance will be sufficient.

Jared Caylor, District Superintendent Board of Trustees Corning Union High School District Page 2

Deficit Spending

The district's budget reflects deficit spending in the budget and/or subsequent years. Fallure to minimize deficit spending could jeopardize the financial standing of the district, including its ability to meet the state recommended minimum reserve for economic uncertainties.

Negotiations

The District has not settled negotiations at this time. If this should change, Government Code 3547.5 requires the district to publicly disclose costs related to any bargaining agreement prior to Superintendent and Board of Trustees approval. Please provide a Disclosure of Collective Bargaining Agreement and multi-year projection to our office 10 working days prior to Board approval.

The attached trend analysis of the 1st interim budget to prior year actuals is provided for your assistance and will provide you with important comparative data for budgetary consideration. The comparative data will highlight trends in revenue and expenditure growth or decline, deficit spending patterns, and a final accounting for the ending fund balance.

We would like to express our gratitude to you and your staff for your cooperation and assistance during our financial reviews. If our office can be of further assistance, please contact Debble Towne at 530-528-7351.

Sincerely,

RICHARD DUVARNEY
