#### MEMORANDUM OF UNDERSTANDING

This Agreement is entered into by and between the Tehama County Department of Education, herein called DEPARTMENT, and Corning High School District, herein called DISTRICT, for the provision of speech services to the District. The parties agree as follows:

The term of this agreement is July 1, 2016 through June 30, 2017.

### A. The DEPARTMENT agrees to:

- 1. Provide speech services during the period of July 1, 2016 through June 30, 2017. This is based on services being provided supporting seven (7) cases. The individual(s) providing the service shall remain an employee of the DEPARTMENT.
- 2. Invoice DISTRICT the sum of the remaining billback deficit. This is based on the Speech/Language Program agreement in the Special Education Local Plan: Two thirds of the deficit is funded by the number of children each district has enrolled in the program. The other third is included in the Per ADA Rate. The two thirds portion of the deficit cost per student is currently estimated at \$552.32. An estimate of the amount to be invoiced will be made in June and the billing will occur after the Department has "closed the books" for the 2016-17 fiscal year. Payment shall be due and payable thirty (30) days after receipt of the invoice by DISTRICT. Payment will be adjusted accordingly in the case of any change in the number of cases supported by the provider.

#### B. The DISTRICT agrees to:

- 1. Provide adequate facilities and support including technology, materials and supplies, and access to a computer and printer for IEP and report writing to enable the speech service provider to perform services.
- 2. Pay the DEPARTMENT for the costs of services at the invoiced rate specified in Item A-2, above.

Each party hereto agrees to hold harmless and to indemnify the other party, its officers and employees, against liability for damages for death or bodily injury to persons, injury to property, or any other loss, damage, or expense arising from the negligence, willful misconduct or omission of the party which committed the act, and while acting under the terms and conditions of the Agreement.

Either party not intending to continue or intending to revise this Agreement for the succeeding year shall give written notice of such intent no later than January 13, 2017.

Should any action be brought to enforce any of the terms of this Agreement, the prevailing party shall be entitled to reasonable attorney's fees.

#### Placement in Mathematics Courses

BP6152.1

#### Instruction

The Governing Board believes that a sound educational program must include the study of subjects that prepare students for admission to higher education and/or a fulfilling career. To the extent possible, district students shall be provided an opportunity to complete a sequence of mathematics courses recommended for admission into the University of California and California State University systems.

(cf. 6141.5 - Advanced Placement) (cf. 6142.92- Mathematics Instruction) (cf. 6143- Courses of Study) (cf. 6146.1 - High School Graduation Requirements)

The Superintendent or designee shall work with district teachers, counselors, and administrators and the representatives of feeder schools to develop consistent protocols for placing students in mathematics courses offered at district high schools. Such placement protocols shall systematically take into consideration multiple objective academic measures that may include, but are not limited to, interim and summative assessments, placement tests that are aligned to state-adopted content standards in mathematics, classroom assignment and grades, and report cards.

(cf. 5121- Grades/Evaluation of Student Achievement) (cf. 6162.5- Student Assessment) (cf. 6162.51 -State Academic Achievement Tests)

Students shall be enrolled in mathematics courses based on the placement protocols. No student shall repeat a mathematics course which he/she has successfully completed based on the district's placement protocols.

When a student does not qualify to be enrolled in a higher level mathematics course based on a consideration of the objective measures specified in the placement protocols, he/she may nevertheless be admitted to the course based on the recommendation of a teacher or counselor who has personal knowledge of the student's academic ability.

The placement protocols shall specify a time within the first month of the school year when students shall be reevaluated to ensure that they are appropriately placed in mathematics courses and shall specify the criteria the district will use to make this determination. Any student found to be misplaced shall be promptly placed in the appropriate mathematics course.

Within 10 school days of an initial placement decision or a placement decision upon re-evaluation, a student and his/her parent/guardian who disagree with the placement of the student may appeal the decision to the Superintendent or designee. The Superintendent or designee shall decide whether or not to overrule the placement determination within 10 school days of receiving the appeal. The decision of the Superintendent or designee shall be final.

(cf. 5123 - Promotion/Acceleration/Retention)

District staff shall implement the placement protocols uniformly and without regard to students' race, sex, gender, nationality, ethnicity, socioeconomic background, or other subjective or discriminatory consideration in making placement decisions.

(cf. 0410 - Nondiscrimination in District Programs and Activities)

The Superintendent or designee shall ensure that all teachers, counselors, and other district staff responsible for determining students' placement in mathematics courses receive training on the placement protocols.

(cf. 4131 – Staff Development)

Prior to the beginning of each school year, the Superintendent or designee shall communicate the district's commitment to providing students with the opportunity to complete mathematics courses recommended for college admission, including approved placement protocols and the appeal process, to parents/guardians, students, teachers, school counselors, and administrators.

This policy and the district's mathematics placement protocols shall be posted on the district's web site. (Education Code 51224.7)

(cf. 1113 - District and School Web Sites)

Annually, the Board and the Superintendent or designee shall review student data related to placement and advancement in the mathematics courses offered at district high schools to ensure that students who are qualified to progress in mathematics courses based on their performance on objective academic measures are not held back in a disproportionate manner on the basis of their race, ethnicity, gender, or socioeconomic background. The Board and Superintendent shall also consider appropriate recommendations for removing any identified barriers to students' access to mathematics courses.
