5 . ITEMS FOR ACTION

5.1 APPROVAL OF THE CUHSD TRANSPORTATION PLAN:

A motion was made by Todd Henderson and seconded by Jim Bingham to approve the CUHSD Transportation Plan. Superintendent, Jared Caylor thanked the board for being here for this meeting. This item required board approval by 4/1. There are no changes and this is a compliance document with the state. Further discussion included:

Board Member, Tony Turri asked if this was part of the consultation piece and Superintendent, Jared Caylor shared that this is a mandated consulting piece around transportation. There was a discussion of how many electric buses the district is going to be receiving.

There will be 2 electric buses which require charging stations. It is a mandate and they are free so the district is getting them. They are normal size and will have improved mileage however, the trips taken cannot be far. These will be used for in town routes driven by the day drivers and not used for long field trips. The district will not replace the diesel buses with the electric buses.

6. ADJOURNMENT:

A motion was made by Cody Lamb and seconded by Todd Henderson to adjourn the meeting at 4:07 p.m.

Approved

Larry Glover, President

Jim Bingham, Clerk

Corning Union High School Dist

Transportation Plan

2022-23

Transportation Services:

1. Enter description of transportation services offered to pupils, and how the LEA will prioritize planned transportation services for pupils in transitional kindergarten, kindergarten, and any of grades 1 - 6 inclusive and pupils who are low income. The Plan may provide for the LEA to partner with municipally owned transit system to provide services to middle and high school students. An LEA may provide no-cost transit passes to students.

The District currently owns 8 school busses: 7 large busses (60 or more passengers) and 1 small bus (35 or less passengers). In addition, the District owns nine (9) passenger vans, four (7) passenger vans. These vehicles traveled a total of 223,979 miles in the 2021-2022 school year. The District currently operates a total of 9 routes; students serviced by a total of 9 school bus drivers, and 4 van drivers.

Finally, the District, on average, transports students on 90-100 field trips each year. For 2022-23, the District is transporting 215 General Education students, and 170 Special Education students. Transportation for General Education students is currently provided for students residing in the boundaries of the school District, but at least 2 miles from their school site.

Transportation for Special Education students is provided for those receiving services at a school other than their school of residence or because of the severity of their disability, as specified in their Individualized Education Plan (IEP). The District provides reimbursement for fuel costs to parents monthly who opt to transport their own child(ren) receiving Special Education services to and from school.

2. Enter description of LEA's transportation services that would be accessible to pupils with disabilities, and homeless children and youth.

Students with disabilities will continue to be provided transportation services, when specified in their IEP, in accordance with the current process. This process involves determining whether a student requires transportation, either because of the severity of their disability or because they must attend a school other than their school of residence to receive the services they need, and then what level of service they require, either station-to-station or curb-to-curb. Station-to-station is the default level of service in which pickup and drop-off is provided at the student's school of residence or other centralized location determined by the District. Curb-to-curb service, whereby the student is picked up and dropped off at the safest location closest to their home, is only provided for students with severe physical disabilities or delay in social, emotional, or cognitive development such that they cannot independently navigate even the minimal distances required for station-to-station transportation. Students designated as homeless are identified, monitored, and serviced by the District Homeless Liaison. This staff member (and others) will work with the family to ensure homeless students are transported to and from school.

3. Enter description of how unduplicated pupils would be able to access available home-to-school transportation at no-cost to the pupils.

Students receiving either General Education or Special Education transportation service, including Unduplicated Pupils -- defined as students who are low socio-economic, English learners, or foster youth -- will receive District transportation service at no charge.

Consultations:
